EDMONTON, FEBRUARY 15, 1922.

TO THE HON. HERBERT GREENFIELD,

Provincial Secretary.

SIR,—I herewith submit the report of the Mines Branch for the year ending December 31, 1921.

Respectfully submitted,

JOHN T. STIRLING,

Chief Inspector of Mines.

2226804

ANNUAL REPORT OF THE MINES BRANCH FOR THE YEAR ENDING DECEMBER 31, 1921.

The total amount of coal produced in the Province during the year was 5,937,195 tons, of which 3,438,965 tons were sold for consumption in the Province of Alberta; 1,915,816 tons for consumption in other Provinces in Canada; and 133,823 tons for consumption in the United States. The coal shown as being sold for consumption in the Province of Alberta includes coal sold to Railway Companies, a large portion of which is used outside the Province.

There were 2 shale mines, 1 copper ore mine, and 333 coal mines in operation during the year 1921; of which 90 were opened, 17 re-opened, and 17 abandoned. In addition to the mines abandoned during 1921, 33 that were closed during 1920 were abandoned, and 43 were temporarily closed.

The List of Permitted Explosives was amended during the year, by adding to it the explosives known as Gelpermite No. 1, Coalite C.L.F., Coalite D.L.F., Coalite E.L.F., and Monobel No. 4.

The most serious accident which occurred during the year was at the mine operated by the Mountain Park Coal Co., Ltd., near Mountain Park, by which two men lost their lives and six were seriously injured. This accident was caused by an ignition of gas from a shot fired in the coal at the face of Room No. 44 off B Level No. 3 East slope.

During the year 21 persons lost their lives from accidents as compared with 29 during 1920. Of these fatal accidents, 2 occurred above ground and 19 below ground. There were 5 serious accidents above ground and 59 below ground; no slight accidents above ground, and 25 below ground.

It will be noted that the *per capita* production of coal per fatal accident is 282,723 tons, which shows a larger tonnage produced than for any previous year.

In addition to the inspections which have been made, from time to time, of the different mines by the District Inspectors, all fatal and serious accidents have been investigated and all inquests attended.

Several samples of mine air have been taken by the District Inspectors, in addition to tests made by them with the Burrell Gas Detector. These samples have been forwarded to the University of Alberta for analysis. A number of samples of coal have also been taken and forwarded to the University of Alberta for analysis. The results of these analyses of coal will be found by referring to the Second Annual Report of the Advisory Council of Scientific and Industrial Research of Alberta.

There are in use 2,075 safety lamps of the Wolf type, 6 of the Kohler type, 1 of the Marsaut type, 3,675 electric portable lamps of the Edison type, 500 of the Wico type, 35 of the Ceag type, and 71 of the Canadian General Electric type. It will be noted that a considerable increase has taken place in the number of electric portable lamps over previous years.

Training in connection with Mine Rescue work has been carried on very satisfactorily during the year, there being three Mine Rescue Cars and six Mine Rescue Stations in operation. This work is now being carried on under the auspices of the Workmen's Compensation Board, and full particulars with reference to it will be found by referring to the report of the Board for the year ending December 31, 1921.

The total output for the year 1921 was 5,937,195 tons, which is 971,728 tons less than the output for the year 1920. The largest monthly production was during the month of November, when 717,338 tons were produced.

The amount of coal produced during 1921 from mines which were opened in 1921 was 59,861 tons.

Twenty-eight persons were prosecuted for contraventions of The Mines Act, a conviction being obtained in each case.

The number of persons employed in mines during the month of December, 1921, was 12,236, being a decrease of 111 from the number employed during the month of December, 1920.

Several changes have taken place in the staff of Inspectors during the year 1921. Mr. Duncan McDonald, who is now employed by the Workmen's Compensation Board, and devotes his whole time to the superintendence of Mine Rescue and First Aid work in the Province, resigned as District Inspector of Mines for the Calgary District in February, 1921, and was succeeded by Mr. Moses Johnson, formerly District Inspector of Mines for the Lethbridge District. Mr. Johnson was succeeded by Mr. Nathaniel Howells, formerly manager of the Jewel Collieries Limited, Wayne. During the month of July, Mr. Johnson resigned as District Inspector of Mines, to take the position of manager of the mine operated by the Chinook Coal Company, Limited, Commerce. The Calgary District is now under the supervision of Mr. James A. Richards.

Mr. M. L. Hyde, Fuel Engineer at Winnipeg, resigned on November 1, 1921, to take a position as Western Representative of the Cadomin Coal Company, Limited, with headquarters at Vancouver, and was succeeded by Mr. George R. Pratt, Fuel Engineer, who for many years was Western Fuel Engineer for the Canadian Pacific Railway Company at Winnipeg.

Particulars with reference to the work being carried on by the Mines Branch, in connection with the extension of the market for coal, will be found by referring to the reports of Mr. Howard Stutebury and Mr. George R. Pratt, which are herewith attached.

Further particulars regarding the mining industry in the Province will be found by referring to the attached tables.

EDMONTON, ALTA.,

FEBRUARY 15, 1922.

DEAR SIR,—

In common with all other commodities in Canada, the market for Alberta coal suffered during 1921, and the tonnage mined is considerably short of 1920, which was the banner year of the industry.

Some of the reasons for the present state of the market are—

- (a) General business depression in Canada.
- (b) Unfavorable weather conditions.
- (c) Depression in the coal trade of the United States, and the consequent deflation of prices at the head of the Lakes on American coal for Canadian consumption.
- (d) The lack of proper standards for Alberta coal, including quality, preparation, and sizing.
- (e) The lack of proper inspection of coal, which would give some measure of guarantee to the consumer of uniformity of product.
- (f) The lack of accurate knowledge of the coals of Alberta, and the best methods of their combustion, possessed by the coal dealers and the general consuming public.

Very fine work has been carried on in the Winnipeg office by Mr. M. L. Hyde, and later, on his resigning, by Mr. Geo. Pratt, late fuel engineer for the C.P.R. The services of these two gentlemen have been highly appreciated by the consuming public in Winnipeg, and very real, if slow, progress has been made. One of the essentials to the development of a constant and growing market, either in Saskatchewan, Manitoba, or British Columbia, is compulsory regulations for standardizing quality, preparation, and sizing of Alberta coals; a general publication of such regulations, so that the consuming public may be properly advised as to the quality of coal being shipped; a definite regulation having for its object the designation of every car of coal leaving a mine, its point of shipment, or other necessary details. This designation to be carried out on the way bills, and bills of lading from the operating company to the wholesaler; in fact, until the coal reaches the consumer's cellar, so that he may have assurance that he is receiving coal from the same mine which had given him previous satisfaction. This is protection, not only for the consumer, but for the reputable dealer, wholesaler, and operator; and would, in my judgment, do much to stabilize the industry and reduce complaints.

We are, unfortunately, in the position in Alberta of being overmined, not only in the matter of production, but in the matter of operating companies, and many of these companies are irresponsible to the extent that they only see the immediate market and its profit, without thought of ultimate development either for themselves or for the industry at large. I am convinced that some restrictive legislation should be sought to prevent the wholesale opening up of what are really "gopher holes," which are operated for a short time during the winter months; have no plant for the proper preparation of coal for the market; no interest in the "kick" that comes back from dissatisfied dealers and consumers (as next year they are operating

under another name), and have no interest in the general welfare of the Province at large.

During the year some progress has been made in the Pacific Coast market. The northern coast has been visited as far as Juneau, Alaska. It is necessary first to build bunkers at Prince Rupert (and these, I am glad to say, after long negotiations, have been arranged for). Lower freight rates are also essential; this matter has been under discussion with the freight officials of the C.N.R., with a view to a special export rate on all coal ex-bunkers at Prince Rupert.

As to the Vancouver market, there is no question in my mind that this is full of great potentialities for development, both in coal and in the other basic productions of Alberta, and the Ocean Port is as fully our port as Vancouver's.

At the present time, a large amount of the coal consumed down the Pacific Slope to Seattle, Los Angeles, San Francisco, Mexico, and the South American Republics is coming from Australia. It is impossible for us at the present time to take care of any bunker or export market at Vancouver, through lack of facilities. There are several plans under consideration with the Vancouver Board of Harbor Commissioners for a floating dock, and another for the building of a huge coal pier with bunkering facilities, adjoining the Ballantyne pier now being built. The matter should be handled by a private bunkering company under lease, and I am advised that such an arrangement is now being developed. My opinion is that the Port of Vancouver is so important to Alberta that an office should be opened up at that point, in charge of a capable business man of good address and wide business experience, having a thorough knowledge of Alberta and its products, and also having a fair connection on the Coast and some knowledge of the shipping industry. Such a man might be hard to find, but would be worth his salary many times over in the development of that trade channel for Alberta products.

Respectfully submitted,

HOWARD STUTCHBURY,

Commissioner.

WINNIPEG, MANITOBA,
JANUARY 10, 1922.

SIR,—I herewith submit my annual report for the year ending December 31, 1921.

The Demonstration Office has been maintained at 277 Smith St., Winnipeg, where domestic heating furnaces and stoves have been on demonstration, showing in practical operation the burning and methods of burning the various kinds of Alberta domestic coals. The office has been well patronised by the public.

In addition to advice being given on the fuels, efforts were made to have home-builders, and others making changes to their heating equipment, obtain advice as to the best equipment to instal, or to have them submit any plans for approval before going to any expense, in order that the installation might be made to give best results on Alberta coals and service to the householder. This service has been used to a small extent, but did not develop as expected, on account of the lack of new building operations.

The office is being used to an increasing extent for our recommendations as to the value of changes proposed, or opinions on new devices placed on the market, by buyers before the purchase of same. In addition to the personal visits made by the public, there is an almost equal number of enquiries for advice over the telephone.

Domestic users who have experienced trouble, and who are unable to provide information at the office as to the cause of the trouble, are visited at their homes, where the causes are pointed out, and a remedy suggested; which, on being carried out, usually removes the trouble.

During the early part of the year the office was kept open between the hours of 9.30 and 5.30, but latterly it has been the policy to have the office open between the hours of 9.30 and 1 o'clock, the afternoon being used for personal visits to coal consumers and dealers.

There is an increasing number of domestic coal users, most of those that get properly accustomed to handling Alberta coals having decided to continue using them. In getting the coal user to make a trial of the Alberta product, a considerable amount of prejudice has to be overcome. Several factors, however, have been in our favor this year; such as the price of hard coal, the rate of exchange, the prejudice against foreign goods, and the feeling that Canadian industries should be encouraged. Strong points have been made of these factors in our newspaper advertising, and good results have been obtained. Usually, when beginning to use Alberta coal, users have done so with the idea that they will use the Alberta coal during the mild weather, and that it will be necessary to use hard coal during the extreme weather. The mild weather to date has not given us an opportunity of determining what loss we shall have from this understanding, but it is not expected to be very high, unless the users have been unfortunate in selecting a grade of coal that is unsuitable for their equipment. Usually the difference is on account of wrong methods of handling. In economic values of the coals, it is in favor of the Alberta coals.

During the summer months a reduction of freight rates, selling price at the mines, and by local dealers, lowered the market price by

about \$2 per ton, with the expectation that buyers would put in their winter supply; but it did not have the effect expected, as very little stocking-up was done.

Considerable business is lost through lack of knowledge by the public of the qualities of the Alberta coals offered for sale; by their innumerable kinds and names; by advertising which attempts to put a value upon the lower grades of coals equal or better than the better grades; by the number of new coal-dealers who have opened up business and sell direct from the car; and by canvassing from door to door. Canvassing from door to door has done much harm, as the class of salesman employed in this work is inexperienced, and only interested in making sales so that he may get his commission; and he may, and does in a large number of instances, represent the coal as being entirely different from what the buyer understands he is obtaining. If the buyer is not accustomed to the use of soft coal, he decides that all soft coal is unsuitable for his purpose, and changes to hard coal. It is difficult to get a person who has had this experience to change back to soft coal.

Hard coke has been a competitor which has taken much business. This fuel has equal heat value to hard coal, and higher, and sells at a price of \$5 per ton less; at the time of writing, the price of hard coke is \$15.50 per ton, as compared with a representative price of the Alberta coals of \$13.75 per ton. The coke is being sold sized the same as hard coal, and is coming more and more in favor.

Souris coal is becoming an increasing factor of competition, and has taken some business which would have gone to the Alberta mines. The classification of Souris coal has been dropped, and the coals given names; some persons buying this thinking it is an Alberta product. The present price of Souris coal is \$8.50 per ton:

From time to time articles appear in the daily papers advising that the Bienfait briquette plant will be in operation at once; but, as far as the writer is aware, no briquettes have been offered for sale yet. The latest advertisement is that they will be sold for \$17 per ton. They are also being boosted as a substitute for hard coal, with the inference that they will burn in a similar manner to anthracite. Information to hand is that a pitch binder will be used, which will make them similar to the Bankhead product, and that they will be a substitute for soft coal. The Bankhead briquettes have been on the market for a number of years, and the amount of hard or soft coal that they have displaced is not noticeable. On this account I do not think that any serious competition need be feared from this source, especially as the price quoted was based upon the cost of manufacture.

On the whole, the coal has been shipped from the mines much better prepared than previously, but there is still much room for improvement, and, from indications at present, much closer competition can be expected from the imported coal during the next season, so that all efforts should be made to meet this. The condition and appearance of the coal is a big factor in the buyer's opinion as to the value of the coal.

The Winnipeg fuel dealers are very well satisfied with the operation of the Winnipeg office, and make full use of same for advice, and as a means of reference to purchasers for information on the grades of coal

which they handle, and are satisfied that unbiased opinions and information are being given. Every co-operation and assistance is given this office, by them, to help the campaign along. This is very encouraging, especially when it must be remembered that the dealers, in addition to being our customers, are also our competitors.

STEAM COAL SITUATION

Early in the year a considerable amount of Alberta product was used in the various steam plants, apartment blocks, etc. Much work was done in the way of instruction and advice in the methods of handling such coals. The coal was sold entirely upon a price basis.

During the summer, competitive tests were run at different plants upon various kinds of coals. A survey and tabulation was also made of the various plants using steam coals.

At present the amount of steam coal from Alberta being used is very small, competition from the foreign coals being too keen. The listed price of the average Alberta coal is \$10 per ton for mine run, while Youghigheny slack is \$9 per ton and Pocahontas mine run \$9.70 per ton.

Hard coke is being brought into the city at the date of writing, at the rate of ten to twelve cars daily.

Factors which must be taken into account, when consideration is given to the probabilities of getting and holding the Domestic fuel market, are:

That hard coal is a good fuel, well known and easily handled, and will permanently stand an unfavorable price ratio when compared upon a heat basis with the Alberta coals, on account of its greater ease in handling into the furnace, and its clean condition of delivery to the house, it being very free from dust.

That increasing quantities of hard coke will be made in the United States, and that much competition will result from this source, especially when (as is the present condition) a by-product market is required, brought about by the mild weather conditions. This coke has a heat value of about 7% greater than hard coal, and is being sold in Winnipeg at 25% less price.

Educational work must be continued and extended. Owing to the affiliation of the dealers with the competitive product, help which we may expect from them will be limited by the interests of their business, and may change forward and back, for and against the Alberta product.

Recommendations are that the newspaper advertising be continued more or less, as conditions warrant.

That lectures be instituted for instruction in the schools on the handling of Alberta coals.

That printed matter be obtained, so that users may have a permanent standard record of methods of using the coals.

That some method be started to educate dealers in the properties and methods of using the coals which they sell.

That mine operators keep advised of the competitive coals, and endeavor to improve the quality and preparation of their coals, so that they may meet competition.

In any consideration for the future possibilities of the Winnipeg domestic market, it should be borne in mind that the product that is being displaced is hard coal or anthracite.

That the Winnipeg dealers have, during the summer and fall months, purchased their stock of foreign coal and stored it in their yards, and at the head of the Lakes, and that the loss due to storing and deterioration is practically nil.

That seasonal production at the mines is not necessary.

That in the past there has been no obligation nor necessity for the ultimate user to purchase in more than 1-ton lots, as required by heating conditions.

That owing to the financial obligations required of the dealers to put in a stock during the summer months, the number of dealers is limited. These same dealers required the whole of the year to either sell coal or to make preparations to do so.

With the Western coals conditions appear to be the reverse.

Unless it is possible for the dealers to obtain coal put down in Winnipeg during the summer season at around 25% less cost than during the winter, there is no apparent advantage for them to stock coal.

That, with the high moisture coals in particular, the storage loss would be great, due to slacking, and breakage through additional handling.

That the average householder has not facilities for storing more than six weeks' supply.

That the householder believes that storing soft coal reduces its fuel value much more than is the actual fact.

That financial conditions and garden lots are not suited for having coal delivered during the summer season.

That, except for speculative purposes, there is no need for the dealer to buy domestic coal, except as required for delivery to customers.

That conditions such as above make a considerable change in the methods in which the dealer has been doing business. Unless summer buying can be forced, the dealer who deals in coal during the winter months only is the one that will be able to do business at a profit, owing to his low overhead cost and the fact that he need only figure on delivery from the car to the customer. There is the disadvantage to this that he winds up his business every season, and it is not necessary for him to use methods which would be required for permanency; he will naturally buy the lowest priced coal and sell it as a better.

The above facts are unpleasant, but they must be realized at the start if it is intended to overcome them. This can only be done by having a much lower mine price during the summer than winter, a considerable reduction in freight rates during the summer months,

delivery from the ear to the customer, and probably financial assistance to the buyer on the part of the dealer.

Egg, stove, and nut sizes of the high moisture coals hold their condition better than lump sizes. Education of the public should be pushed to further the use of these sizes. The mine operators should assist by increasing their output of such sizes; and even, if necessary, to make them from the lump. The mine operators should also make demonstrations of the value of the smaller sizes and slack, so that full commercial value of same may be obtained. The general impression exists that the operator feels that he has done his duty when he places so many tons of coal on the market, and that it is "up to" the dealer to sell his product in preference to all others. From a business standpoint the operator should be the most interested party in following his coal to its final disposition, and not work on the basis that it is so much better than some other coal, but work on it until he has convinced the user that it is the best.

All parties should use every effort to better the fuel, and to overcome any disadvantages which they may have. One great disadvantage, in some users' eyes, is the difficulty of control of the free burning coals. The writer has experimented in order to overcome this, and in his opinion there is not a more desirable fuel for domestic purposes, it having more extreme lasting qualities, and quicker response, than a mixture of stove or nut size free burning coal, and coking coal slack, having 3 to 1 mixture. This is also free from clinker trouble.

With regard to future conditions for steam coals, this is almost entirely a question of price, and cannot be foreseen. Latterly the pushing of the steam coals has been given second place to the domestic fuels; as it seemed that the energy required could be put to better advantage if concentrated on the domestic market.

The foreign steam coals on the Winnipeg market are selected as being the best obtainable. It will be necessary for the Western operators to guarantee certain conditions and heat values for their coals, making allowance in the price for the lower heating values. If they desire the dealers to act as their agents, and boost their product in preference to the foreign, they must protect him against loss due to complaints of customers where coal does not come up to the standard expected by the users. Rightly or wrongly, the dealer will not take the responsibility of boosting the lower heat value coal when compared with the foreign, and at the same time take over the "kicks" and troubles which originate from same. This responsibility should be taken over by the operator, or at least until such time as by practical experience he has learned the full negative value of them. It is believed, however, that the dealers would be willing to take more than their equal share if they believed that the operator would take care of all that he possibly could, and take measures to prevent unnecessary troubles in future.

With regard to the user's equipment for burning the steam coals, most of these are out of date, or old style methods, but they answer the purpose better on the higher value coals, or coals low in ash. The economic losses are high in any coal. Educational work is the only means of overcoming this feature, illustrating the fact that the lower grade of coals may be purchased at greater economic values than

the higher grades, and that plants installed to burn the lower grades efficiently will give equal efficiency on the better grades. This should be the practical educational demonstration of the operators, who should put their own plants up to date and show the user what can be done with the grade of coal which they mine. Outside of the educational feature, it would be good business, and would pay for itself in a few years.

Yours truly,

GEORGE R. PRATT,

Fuel Engineer.

JOHN T. STIRLING, ESQ.,

Chief Inspector of Mines,

Edmonton, Alberta.

ANNUAL CONSUMPTION OF COAL IN THE DOMINION OF CANADA

The following table is taken from a report issued by the Department of Mines, Ottawa, for the year 1920:

Calendar Year	Canadian		Imported		Total	Per Capita
	Short Tons	%	Short Tons	%		
1886.....	1,595,950	45.9	1,884,161	54.1	3,480,111	0.758
1887.....	1,848,365	45.7	2,192,260	54.3	4,040,625	0.871

THE MINES BRANCH

The following tables, which show the quantities in tons of coal entered for consumption for each month during the year 1921, through ports in the Provinces of Manitoba, Saskatchewan, and Alberta, and including the ports of Fort Frances, Fort William, and Port Arthur, have been compiled from information received from the Commissioner of Customs at Ottawa.

The following table gives particulars with reference to the Coal Mining Industry in the Province of Alberta, for the year ending December 31st, 1921.

SUMMARY OF STATISTICS

Number of short tons of coal produced.....	5,937,195
Number of short tons of briquettes produced.....	62,466
Number of short tons of shale produced for making bricks.....	10,790
Number of coal mines in operation during the year.....	333
Number of copper ore mines in operation.....	1
Number of shale mines in operation.....	2
Number of mines opened.....	90
Number of mines re-opened.....	17
Number of mines abandoned.....	17
Number of mines closed previous to 1921, now abandoned.....	33
Number of mines closed, but not abandoned.....	43
Number of coal mines in operation at December 31, 1921.....	273
Average number of persons employed below ground.....	7,203
Average number of persons employed above ground.....	2,807
Number of separate accidents causing loss of life.....	20
Number of deaths caused by accidents above ground.....	2
Number of deaths caused by accidents below ground.....	19
Number of serious accidents above ground.....	5
Number of serious accidents below ground.....	59
Number of slight accidents above ground.....	..
Number of slight accidents below ground.....	25
Number of persons prosecuted under The Mines Act.....	28
Number of provisional Overmen's Certificates issued during 1921.....	276
Number of Third Class Certificates issued during 1921.....	67
Number of Second Class Certificates issued during 1921.....	13
Number of First Class Certificates issued during 1921.....	2
Number of Mine Surveyors' Certificates issued during 1921.....	6
Number of Mine Rescue Certificates issued during 1921.....	154
Total number of Third Class Certificates issued to December 31st, 1921....	730
Total number of Second Class Certificates issued to December 31st, 1921....	327
Total number of First Class Certificates issued to December 31st, 1921....	201
Total number of Mine Surveyors' Certificates issued to December 31st, 1921..	160
Total number of Mine Rescue Certificates issued to December 31st, 1921..	897

The following tables give particulars of work done at the Shale Mines in the Province:

OUTPUT OF SHALE IN TONS OF 2000 LBS., USED FOR MAKING BRICKS, 10,790 TONS

District	AVERAGE NUMBER OF DAYS WORKED											
	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Medicine Hat.....	26.00	12.50	16.00	15.50	16.50	17.00	16.50	21.50	15.50	19.50	15.00	26.00
Total												217.50

NUMBER OF MEN EMPLOYED IN SHALE MINES

District	NUMBER OF MEN EMPLOYED IN SHALE MINES											
	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Medicine Hat.....	14	14	13	13	18	14	14	18	12	9	10	13
Total												13

Mine Timber used (lineal feet).....2,748 Shots fired: Fuse.....3,380
 Explosives used: 40% dynamite (lbs.).....3,174 Miss-fires: Fuse.....2

BRICKS (in Tons of 2,000 lbs.) SOLD FOR USE IN:

Alberta	British Columbia	Saskatchewan	Manitoba	Total
2,556	195	5,097	495	8,343

COPPER ORE MINE

Number of men employed	Days worked	Explosives used in Rock	Shots fired with fuse	Mine Timber used
6	160	60% Dynamite 590 lbs.	800	2,230 lin. ft.

In the following tables the short ton of 2,000 lbs. is used in all cases.

Year	Output in tons For N.W.T. (Alberta and Saskatchewan)	Output in tons, Alberta
1901.....	346,649
1902.....	510,674
1903.....	622,939
1904.....	782,931
1905.....	811,228
1906.....	1,385,000
1907.....	1,834,745
1908.....	1,845,000
1909.....	2,174,329

1920.....	3,359,309	3,419,021	130,594	101,693
1921.....	2,943,141	2,897,380	96,674	62,466

*Includes outputs from Alberta and Saskatchewan.

During the year 1909, a strike affecting all the larger mines in the Province lasted for a period of three months.

During the year 1911, a strike affecting all the larger mines in the Province lasted for a period of eight months.

During the year 1917, a strike affecting all the larger mines in the Province lasted for a period of three months.

During the year 1919, a strike affecting all the larger mines in the Province lasted for a period of three months.

The following table shows the outputs of the different districts for the years 1920 and 1921:

Districts	1920			1921		
	Domestic	Bituminous	Anthracite	Domestic	Bituminous	Anthracite
Crow's Nest Pass.....		1,775,529			1,272,181

ELECTRICITY

The Rules for the Installation and Use of Electricity in or about mines require a return to be made to the Department on or before January 21st of each year, giving size, type, and any other particulars which may be required of electrical apparatus in use above and below ground. According to the returns received from the different mines, electricity was used in 60 different mines in 1921. A summary of these returns regarding the horse-power of electrical apparatus in use is given below.

Districts	No. of Mines using Elec- tricity	Horse-Power of Electrical Apparatus in use		Total horse- power
		Above ground	Below ground	
Crow's Nest Pass.....	6	3,757	700	4,457
Pincher Creek.....				
Lethbridge.....	6	903	423	1,326
Magrath.....				
Milk River.....				
Taber.....	3	318	160	478
Bow Island.....				
Medicine Hat.....	1	15	60	75
Aldersyde.....				
High River.....				
Canmore.....	1	573	100	673

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.

Date	Mine	Name	Age	Occupation	Details
Jan. 1	Miller, Smith & Miller.....	John Wisner.....	65	Miner	He was cutting a prop to set under a bad piece of rock, when a piece of rock fell, striking him on the head, knocking his face against the coal rib. Bad scalp wound on back of head, and nose cut. He was in the act of taking down the jack bar, and in stepping back got his left foot caught in the picks of the machine, which was in operation, nearly severing his foot.
Jan. 4	Great West Coal Co. Ltd. Clover Bar.....	John Wallace.....	18	Machine Man's Helper	
Jan. 12	Dept. Nat. Res. C.P.R. Lethbridge.....	S. Stavinsky.....	20	Gripper	The haulage rope got caught in the frog of the switch at crossing of S.E. 5th face and 2nd Butt Entries, and while he was stepping over to reach the signal wires the rope slipped out of the frog and struck him on the leg, breaking a small bone near the ankle.
Jan. 13	Bush Mine Coal Co. Ltd.....	W. Corbett.....	37	Miner	He was working at the face of a room, when a piece of coal fell from the roof, striking him on the back. Bruised back.
Jan. 27	Beverly Coal & Gravel Co. Ltd.....	Lewis Benbon.....	32	Miner	He was mining coal at the face of No. 2 Entry, and stuck the pick into his foot.
Jan. 28	Beverly Coal & Gravel Co. Ltd.....	W. H. Wilson.....	31	Miner	He was working in No. 8 Entry, and struck his hand against a piece of wood with a nail in it, the nail piercing the palm of his hand.
Jan. 28	Beverly Coal & Gravel Co. Ltd.....	T. Scogman.....	21	Miner	While mining coal, a piece fell from the face, striking him on the ankle. Bruised ankle.
Jan. 29	D. Falvo.....	L. Roberto.....	30	Miner	He was mining coal at the face of the back entry, when a piece of clay-shale fell from the roof, knocking him down and striking his face against the coal. Nose cut.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Feb. 1	Beverly Coal & Gravel Co. Ltd.	A. Huntley	42	Miner	While mining coal, a piece of coal flew from the pick point, striking him in the eye.
Feb. 13	Chinook Coal Co. Ltd.	G. Flumigani	37	Pumpman	He had signalled from the shaft bottom, to the engineer on the surface, that he wished to ascend to the surface; received the return signal and gave the signal for the engineer to hoist, which was done. When the cage reached the surface he was found hanging by the chin on the bottom of the cage. The back of his head was crushed in. Fatal.
Feb. 14	Humberstone Coal Co. Ltd.	A. Keppy	27	Haulage Laborer	He was taking a car off the endless rope haulage when his finger was caught in the rope clip, taking the top off his little finger.
Feb. 17	Keith & Fulton	Sidney Timbers	23	Mine Mechanic	He was adjusting, with his right hand, an oil cup on the gasoline engine driving the fan, his left hand on which he had a glove caught in the shaft. Left thumb torn off at second joint.
Feb. 18	R. P. Ottewell	Alex. Potter	40	Miner	He was pushing a loaded car over a switch when the car became derailed, catching his thumb between the car and coal on side of entry, causing a deep cut on right hand thumb.
Feb. 22	Ant Hill Coal Company	A. J. Johnson	29	Overman	He was engaged cutting ice in the shaft, when the bolt, connecting the hoisting cable to the skip, broke, allowing him to drop to the bottom of the shaft, a distance of 50 feet, breaking both legs.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Mar. 21	Newcastle Coal Co. Ltd.....	W. Taylor.....	18	Driver	He was driving a horse attached to a trip of loaded cars, the horse started to go too fast, and Taylor unhooked the horse, but the hook caught in his clothing, pulled him down on to the track, where he was struck by the moving cars. Right leg broken above the knee.
April 2	Dept. Nat. Res. C.P.R..... Lethbridge	Thos. Martin.....	19	Gripper	No witnesses to accident. He had taken a trip of loaded cars from the face of No. 5 Face Entry N.E. and in some manner fell in front of the trip, which crushed him, pushing him off to the side of the track, where he was found by a workman who noticed that there was no one on the trip when it passed him. He was dead when found.
April 9	North American Collieries Ltd..... Evansburg	E. House.....	20	Switchman	He was engaged coupling cars on the right northeast entry, and got jammed between the cars and a prop. Hips crushed.
May 9	Dept. Nat. Res. C.P.R..... Lethbridge	A. Sillito.....	37	Coal Loader	A shot had been fired which did not bring down the coal he was in the act of shearing, when the coal fell and caught him. Broken right leg and injured hand.
May 13	Humberstone Coal Co. Ltd.....	J. Suey.....	30	Miner	He was timbering, and while chopping a timber the axe slipped, striking him on the foot. Left foot badly cut at instep.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
May 14	Fraser-Mackay Collieries Ltd.	S. Long	28	Steam Engineer	He had gone down the shaft to repair the pump, and while there reached into the shaft to tighten up a leaky steam-joint; the cage came down and caught his right arm, crushing it so that it had to be amputated.
June 17	Dept. Nat. Res. C.P.R. Lethbridge	P. Hendrick	31	Driver	He was bringing a trip of cars from No. 5 Face Entry, when another driver coming from No. 5 Slant met him at the switch, and in trying to get clear, he raised himself too high and got caught between car and timber. Broken rib on left side.
July 11	Celtic Coal Company Ltd.	G. Davis	44	Miner	He had loaded a shot with black powder, and while in the act of lighting the fuse ignited some loose powder which had spilled onto the floor, when he was making up a cartridge. Slight burns on arm and chest.
July 25	Dept. Nat. Res. C.P.R. Lethbridge	J. Fardina, Jr.	17	Driver Boy	Fardina was riding on top of a loaded car, when he struck his head against the roof, causing him to fall off the cars, crushing him between cars and side of entry. Two ribs broken on left side.
Aug. 12	Dept. Nat. Res. C.P.R. Lethbridge	Steve Kropinak	24	Driver	He was bringing a trip of loaded cars through the slant onto 13 Butt Entry S.E., when another driver passing with a trip of empty cars stopped in front of the slant; Kropinak in trying to stop his trip got crushed between the loaded and empty cars. Bruised about the hips and two ribs broken.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Aug. 12	Humbersstone Coal Co. Ltd.....	M. Gamborski.....	40	Tracklayer	He put his hand on the rope wheel to feel whether it was wearing, and got his fingers caught by the rope. Ends of two fingers torn off necessitating amputation at first joint.
Aug. 15	Dept. Nat. Res. C.P.R. Lethbridge	T. Boyle.....	27	Driver	He was bringing a trip of loaded cars out of 22 Butt Entry N.E., riding on the first car, when his horse ran away knocking out a boom. Boyle jumped off the car and got crushed between car and side of entry, sustaining two broken ribs.
Aug. 22	Can. Pac. Ry. Dept. of Nat. Res. Lethbridge	Mike Olshaski.....	31	Driver	He was bringing a trip of loaded cars out of 20 Butt Entry S.W., when the cars became derailed, knocking out a prop, which allowed the boom to fall on him, breaking two of his ribs.
Aug. 22	Can. Pac. Ry. Dept. of Nat. Res. Lethbridge	James Moore..... John Larko.....	38 38	Examiner Loader	They were in pillar workings on 15 Butt Entry 6 Fare N.W., and had fired a shot at the face of the pillar, which ignited some gas, resulting in Moore being burnt on both hands, face, and round the neck, and in Larko being badly burnt on both hands, right arm, face, and neck.
Aug. 27	Can. Pac. Ry. Dept. of Nat. Res. Lethbridge	John Yorko.....	18	Gripper	He was taking a trip of empty cars in the entry, and neglected to stop at the regular place. He had pulled beyond this, and uncoupled four cars from the rope; they ran back down the grade, and displaced some timber, which fouled the signal wire. Yorko was in the act of straightening out the signal wires when some rock fell from the roof, striking him on the head and arm. Cuts on the head and fractured wrist.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Sept. 6	J. Lebisto	J. C. Spencer.....	22	Pusher	He was pushing a car, when a fall of rock took place, striking him on the left leg. Left ankle broken, and knee dislocated.
Sept. 17	Shamrock Coal Co. Ltd.....	Bernardino Defabio.....	25	Miner	He was setting a prop, when a fall of rock took place, striking him on the arm. Fractured forearm.
Oct. 6	Can. Pac. Ry. Dept. Nat. Res. Lethbridge	George Kozniuk.....	26	Driver	He was driving a horse hauling a trip of five loads from No. 17 Butt, and, when coming on to the slant to No. 18 Butt, the horse took the straight road instead of turning into the slant, pulling the first car across the track, jamming him between the car and side of entry. Breast-bone and ninth rib broken.
Oct. 7	The Gibson Syndicate.....	Roscoe V. Brown...	24	Machine Man	He was operating an electric coal-cutting machine; a piece of rock dropped from the roof on to his back. Dislocated spinal column.
Oct. 11	North American Collieries Ltd..... Drumheller	A. Pachika.....	40	Miner	A shot was being fired in a cross-cut being driven to 2nd S.W. Entry; the shot-lighter gave warning, and fired the shot. Pachika was struck by flying coal from the shot. Bruised arm, and skin wounds on face.
Oct. 13	McPeak Coal Company.....	Fred Booker.....	18	Pusher	He was taking shelter while a shot was being fired in the N.E. Entry, when, hearing a shot explode in a room, and thinking it was the shot in the entry, he proceeded into the entry, and when near the face the shot exploded and he was struck by flying coal. Cuts on ear and hand.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Oct. 18	North American Collieries Ltd. Pembina	Thomas Raymond. Arthur Norris.....	46 37	Machine Man Machine Man's helper	They had completed a machine cut in a pillar, and were taking the machine out from the cut, when a fall of coal took place, striking both men. Raymond was cut about head, bruised about head and shoulders. Norris' left ankle was badly broken and his right ankle was badly bruised.
Oct. 26	Atlas Coal Co. Ltd.....	Robert Richards.....	31	Miner	He was loading coal at face of No. 16 room No. 3 West Entry, when a piece of rock fell from the roof, breaking his back and crushing him badly. Fatal.
Nov. 2	Can. Pac. Dept. Nat. Res. Lethbridge	William Meichkota..	48	Loader	He was loading a car of coal at the face No. 11 Room 19 Butt 6 face entry, when a fall of roof-rock took place, under which he was caught. Badly bruised back, and rib on right side broken.
Nov. 14	Banner Coal Co. Ltd.....	Henry Bolle.....	23	Miner	He had lit the fuse for a shot, and had retired to a place of safety, when he heard a shot, and thinking it was his, returned towards the face of his room, when the shot exploded. Bruised about face, left eye, and left arm.
Nov. 20	North American Collieries Ltd. Pembina	Wesley Bell.....	21	Machine Man's helper	He was tightening the machine chain when the ratchet handle slipped, crushing his thumb against the haulage jack. Thumb of right hand badly crushed.
Nov. 25	Great West Coal Co. Ltd. Aerial	A. E. Watkins.....	35	Miner	He was working at the face of No. 3 Room, when a piece of rock dropped out of a pot-hole in the roof, striking him on the back. Fractured spine and internal injuries, from which he died.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Nov. 25	S. Centazzo.....	D. S. Gillies.....	50	Miner	He was digging coal from the face of the counter-entry, when a piece of coal from the point of the pick struck him in the left eye.
Nov. 26	Keith & Fulton.....	Thos. McNutt.....	36	Laborer	He was working on the main entry on the return side of a Gasoline operated pump, and became overcome by the exhaust gases from the engine.
Dec. 1	The Canada West Coal Co. Ltd.....	John McCue.....	42	Loader	He was loading coal at face of No. 24 West Entry, when a fall of rock took place, striking him on the leg. Fractured leg.
Dec. 6	Humberstone Coal Co. Ltd.....	Thomas Fred Vining.	33	Pusher	He was pushing cars along the No. 4 West Entry, and another pusher came behind with a car, jamming Vining between the cars. Knee crushed.
Dec. 6	Reed & Brown.....	James Finlayson.....	42	Miner	He was taking down coal, when another piece of coal dropped from the face, and struck him on the hand. Third finger fractured, and index finger bruised and torn.
Dec. 7	Edmonton Collieries Ltd.....	Arthur Blair.....	31	Machine Man's helper	He was helping with an electric coal cutting machine, when one of the jack-bars slipped, striking him on the side of the head, causing him to fall and his right foot to come in contact with the cutter chain. Right foot cut at base of first and second toes.
Dec. 8	Can. Pac. Ry. Dept. Nat. Res. Lethbridge	Nik Elasyuk.....	43	Machine Scraper	He was shoveling machine-scraper's back from the cut, when some coal fell from the face, striking him on the shoulder. Dislocated right shoulder.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE DOMESTIC FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Dec. 8	The Palisade Coal Co. Ltd.....	Edgar Barnes.....	27	Driver	He was driving a horse, which got out of control, knocking out a set of timber, which allowed a slab of rock to fall on Barnes. Fracture of upper dorsal vertebrae.
Dec. 24	Humberstone Coal Co. Ltd.....	Mike Pesuk.....	33	Machine Man	He was running a coal-cutting machine, when a piece of coal fell on his foot, crushing same, which caused slight septic poisoning.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.

Date	Mine	Name	Age	Occupation	Details
Jan. 5	West Canadian Collieries Ltd., Greenhill	J. M. Anderson.....	17	Rock Picker	Caught between discharge end of picking belt and coal chute, crushing face and chest, from which he died later.
Jan. 25	West Canadian Collieries Ltd., Bellevue	J. Sikella.....	19	Rope-rider	He had detached the rope from a trip of two cars which had been hoisted up the slope, and for some unknown reason walked alongside the cars, and was crushed between the cars and foundation of hoisting engine, being killed instantly.
Jan. 26	West Canadian Collieries Ltd., Greenhill	T. Haggblad.....	27	Miner	Was working in a pillar, when a fall of coal from the side of place occurred, striking him. Dislocated hip.
Feb. 1	Mountain Park Coal Co. Ltd.....	T. Werechuk..... J. Natali.....	24 34	Chuteloader Miner	Fractured skull and burns. Fatal.
		E. Warwicky....	36	Driver	Burns to face and hands, and asphyxiated by after-damp. Fatal.
		W. Davis.....	43	Examiner	Blade fractured.
		Joe Valla.....	34	Miner	Burns to face, hands, and body.
		L. Dominic.....	30	Miner	Burns to face and hands.
		G. Peruzini.....	24	Miner	Burns to eyes, face, and hands, and bruised on neck.
		R. Krystor.....	26	Miner	Burns to face and hands.
Feb. 2	P. Burns' Coal Mines Ltd.....	G. Unger.....	49	Miner	Burns to face and hands. The above accidents were all caused through an ignition of gas after firing a shot in No. 44 Room off B. Level No. 3 East Slope. He was mining coal, when a fall of coal from the roof took place, striking him on the back. Injured back.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued.)

Date	Mine	Name	Age	Occupation	Details
Feb. 5	Brazeau Collieries Ltd.	M. Constantin	29	Miner	He was undermining coal at the face of No. 6 Incline, when a piece of coal dropped out of the face, knocking him off the bench of coal, fracturing his ribs, which pierced his lungs; from the effects of which he died whilst being taken out of the mine.
Feb. 14	Brazeau Collieries Ltd.	A. Krusel	21	Motorman	He was bringing out a trip of loaded cars from the inside section, and bumped into a derailed loaded car at foot of No. 72 Incline, which displaced the battery box of the motor, crushing him between the battery box and the loaded car. Fracture of second, third, fourth and fifth ribs on left side, and dislocation of right clavicle.
Feb. 18	Hillcrest Collieries Ltd.	C. E. Ironmonger	60	Miner	He was mining coal in pillar workings, when a fall of top rock took place, striking him on the legs. Left leg broken.
Feb. 22	Blue Diamond Coal Co. Ltd.	A. Stewart	46	Rock Miner	He was driving a slope below No. 2 South Entry, when a cave of rock and gravel took place, burying him and suffocating him. Fatal.
Mar. 2	Jasper Park Collieries Ltd.	T. Rocchio	46	Miner	He was working in pillar workings, when a piece of rock fell from the hanging wall, striking him on the hip. Crushed through hips.
Mar. 21	Brazeau Collieries Ltd.	W. J. Hall	25	Motorman	He was hauling coal to the boiler house, and had stepped off the motor to throw a switch, and in getting back on to the motor slipped between the motor and car. Left leg fractured and cut.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Mar. 21	Canmore Coal Co. Ltd.	W. Grant	30	Miner	He was engaged helping clear a cave on the main haulage road in the Sedlock Seam, when some loose rock slid from the side, pinning him underneath, crushing him, and causing injuries from which he died.
Mar. 28	Mountain Park Coal Co. Ltd.	L. McMillan	34	Miner	He was mining coal at the face of No. 47 room, when a large piece of coal rolled off the bench on to his leg. Both bones of right leg broken.
Mar. 30	Mountain Park Coal Co. Ltd.	W. H. Walls	32	Pipe Fitter	He was standing in a manhole on No. 3 West Slope, when an empty car on the slope trip jumped the track, and the front end, entering the man-hole, jammed his hand against a piece of pipe. Loss of four fingers and part of hand.
Mar. 30	Canmore Coal Co. Ltd.	Jas. Hill	48	Overman	Whilst going around the working places, he slipped, and fell in a chute. Fractured rib on right side.
April 14	Jasper Park Collieries Ltd.	F. Sanderson	37	Miner	He was using an axe, shaping a wedge, when the handle struck a timber, causing it to swing, and striking his hand, severe cut at base of left thumb.
April 26	West Canadian Collieries Ltd. Greenhill	C. Zornick	45	Miner	He was engaged in bucking coal in a chute in pillar workings, and in some manner fell in the chute and got jammed between the coal and bulkhead, breaking his neck, killing him instantly.
April 29	Bellevue Collieries Ltd.	F. Volana	24	Miner	He was taking refuge from a shot in the entry, when a piece of rock thrown by the shot ricocheted off a mine car, striking him on the leg. Right leg badly cut and bruised.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD, IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
May 6	Oliphant-Munson Collieries Ltd.	O. Dixon	30	Tipple Mechanic	He was testing a bearing for heating, and got his hand caught in a gear wheel. Thumb and two fingers of right hand torn off.
May 9	West Canadian Collieries Ltd. Bellevue	W. Brooker	44	Driver	He was driving a horse hauling loaded cars from the entry face to couple up two cars which he had left standing at No. 56 chute, and he failed to get off the cars which he was riding, and got crushed between the moving and standing cars; from the effects of injuries received he died on May 10th.
May 9	West Canadian Collieries Ltd. Bellevue	T. Bradley	17	Motorman	Got caught between motor and empty cars. Fractured pelvis.
June 1	West Canadian Collieries Ltd. Greenhill	L. Poch	47	Miner	He was commencing work taking out a pillar, when a piece of coal fell off the side of the pillar, striking him on the head and shoulders, breaking his neck.
June 1	Cadomin Coal Co. Ltd.	John Higgins John Stobeg Lester McLeod	37 32 18	Examiner Driver Fan Man	The examiner had fired the shots in No. 47 raise off the main entry, and while firing the last shot an ignition of gas took place through the shot being too light, causing a blown-out shot. Higgins and Stobeg were burnt about the face and hands, and McLeod slightly burnt about the face.
June 4	Blue Diamond Coal Co. Ltd.	Chas. Burrows	54	Miner	He was working in the No. 3 South slope Rock Tunnel, when a piece of rock slipped off the hanging wall, striking him. Compound fracture of the left leg and scalp wounds.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
June 18	West Canadian Collieries Ltd. Bellevue	F. Cerney.....	51	Timber Packer	He was helping another timber-packer to carry a timber, and stepped between some loaded cars on the entry, when the horse attached to the cars started, and the timber, catching between the cars, crushed him against the rib side. Fatal.
June 15	McGillivray Creek Coal & Coke Co. Ltd.....	S. Andros.....	18	Chute Loader	He was loading coal at a chute when a piece of coal struck him on the leg. Simple fracture of left leg.
July 6	Blue Diamond Coal Co. Ltd.....	G. Basso.....	54	Miner	He was sawing a prop, when the saw jumped, and scratched the back of his hand, which became infected, causing blood poisoning from the effects of which he died on July 13th, 1921.
Aug. 10	Brazeau Collieries Ltd.....	D. Valentimizzi.....	38	Miner	He was shearing the coal face, when a piece of coal fell away from the face, striking him on the left leg. Fracture of left leg above ankle.
Aug. 10	Stirling Collieries Ltd.....	E. S. Brown.....	35	Laborer	He was engaged helping to move a track tie, which was being used as a block for the wheels of the steam shovel, and got his foot caught between the block and the track ties. Before he could get clear, the shovel moved up against the block, crushing his leg between it and the track ties. Left leg broken below the knee.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Aug. 17	Mountain Park Coal Co. Ltd.	C. Santi	24	Miner	The injured person, along with two other miners, was putting up a set of timber at the face of B Entry when a piece of top coal fell, displacing the collar, which fell on to Santi. Fracture of spinal column, from the effects of which he died on December 27th, 1921, in the Royal Alexandra Hospital.
Aug. 23	T. H. Perlin	Alex Groski	29	Miner	He was taking down top coal in first room off the entry when a piece of coal struck him on the left leg, fracturing same above ankle.
Sept. 3	West Canadian Collieries Ltd. Bellevue	A. Rosis	31	Miner	He was working in a pillar, when a fall of rock took place, striking him on the face and shoulder. Collar-bone broken on left side.
Sept. 6	Alexo Coal Mining Co. Ltd.	John Morley	23	Pusher	He was pushing a car, when a piece of coal fell off the car, striking him on the hand, necessitating amputation of middle finger of right hand at first joint.
Sept. 17	Alexo Coal Mining Co. Ltd.	Mike Holgrove	30	Machine Man	He was walking in the mine and slipped on a piece of rock. Sprained ankle.
Sept. 20	Hillcrest Collieries Ltd.	James Pearson	19	Driver	He was driving a horse hauling cars. The horse jumped, jamming his hand between the horse and car. Broken wrist.
Oct. 5	West Canadian Collieries Ltd.	M. Mattison	51	Miner	A shot had missed fire, and a second shot had been fired, which it was thought had exploded the first shot. Mattison was digging the coal, when his pick must have struck the unexploded charge of the first shot, which exploded, blinding him in both eyes, face and breast severely torn, and breaking both upper and lower jaws.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Oct. 27	Canmore Coal Co. Ltd.	E. Willmott	26	Miner	He was working at the face of No. 8 cross-cut Carey Seam, when a small nigger-head fell from the face, striking him on the hips and lower part of back, bruising same.
Nov. 11	Canmore Coal Co. Ltd.	C. F. Fowers	48	Examiner	He was repairing the door on a dump car in No. 27 Jig Stewart Seam, the car having been hoisted to allow him to do so; the friction on the engine slipped, allowing the car to drop back, and crushed him against a timber. Chest squeezed, two ribs broken and two ribs cracked.
Nov. 14	Mountain Park Coal Co. Ltd.	Pete Chemuk	33	Miner	He was working at the pillar No. 1 Room, when a cave took place, burying him at the face of the crosscut. He was dead when found.
Nov. 15	West Canadian Collieries Ltd. Greenhill Mine	G. Belthrame	28	Miner	He had gone into the face of No. 5 Entry, where a shot had been connected up by the shotlighter, and the shotlighter (not knowing that he was at the face) fired the shot, the flying coal striking Belthrame on the head and chest. Right eye destroyed, left eye badly injured. Cut and bruised about head and chest.
Nov. 24	Hillcrest Collieries Ltd.	William Kuleski	36	Miner	He was on 552 Landing off No. 1 Slope, when he was struck by a trip of empty cars which went through a misplaced switch. Dislocated left elbow, injured collar-bone, cut and bruised about the face.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE BITUMINOUS FIELD IN 1921.—(Continued).

Date	Mine	Name	Age	Occupation	Details
Dec. 4	McGillivray Creek Coal & Coke Co. Ltd.....	James Gilchrist.....	50	Laborer	He was engaged emptying rock from nine cars, and got caught between two cars. Fracture of left leg and dislocation of knee.
Dec. 22	Cannore Coal Co. Ltd.....	Steve Babink..... Bill Palaniuk.....	42 39	Miner Miner	They were standing on the gangway while the shotgutter was blasting in the raise from the gangway. The shot ignited some gas, which burnt them about the face, ears, neck, and hands.
Dec. 23	Brazeau Collieries Ltd.....	George Farnsworth...	33	Miner	He was lowering a loaded car from the face of 67 room, by means of a hemp rope, when his foot and leg were caught between the rope and the snubbing post. Fractured leg.
Dec. 29	Mountain Park Coal Co. Ltd.....	Leslie A. McMillan...	34	Driver	He was driving on the B Level No. 3 East slope, hauling out a trip of five loaded cars; the spragger missed his sprags, allowing the cars to travel too quick. McMillan jumped off, and was crushed between the mine cars and a post, receiving injuries to his hips and internally, from the effects of which he died on December 31st, 1921, whilst being conveyed to the hospital in Edmonton.

LIST OF ACCIDENTS WHICH HAVE OCCURRED IN THE ANTHRACITE FIELD IN 1921.

Date	Mine	Name	Age	Occupation	Details
Feb. 25	Dept. Nat. Res. C.P.R..... Bankhead	James Maggs.....	49	Miner	Base of skull fractured by fall of coal while mining coal in pillar workings. Fatal.
July 7	Dept. Nat. Res. C.P.R..... Bankhead	James Gosling.....	41	Laborer	Crushed between cars and locomotive while attempting to uncouple a tow chain from a trip of cars running ahead of same, receiving injuries from which he died shortly after.

FATAL ACCIDENTS

The fatal accident which occurred to J. M. Anderson on January 5th, at the mine operated by the West Canadian Collieries, Ltd., Blairmore, was caused through his being crushed between the discharge end of picking belt and the chute. He was engaged picking rock from among the coal off the picking belt, and in some unknown manner got caught between the discharge end of the belt and the coal chute, receiving injuries to the face, chest, and arms, from the effects of which he died four hours later.

The fatal accident which occurred to John Sikella on January 25th, in the mine operated by the West Canadian Collieries, Ltd., Bellevue, was caused through his being crushed between the engine foundation and moving loaded cars. He was engaged at the top of the slope, uncoupling cars, and, having detached the rope from a trip of loaded cars which had been hoisted up the slope, proceeded to walk alongside the moving cars, and got crushed between the hoisting engine foundation and cars, death being instantaneous.

The fatal accident which occurred to T. Werschuk and J. Natali on February 1st, in the mine operated by the Mountain Park Coal Co., Ltd., at Mountain Park, was caused through an ignition of gas by a shot. These men were engaged as chuteloader and miner respectively. A shot having been fired in No. 44 room off B Level No. 3 Mine, when a second shot was fired, and an ignition of gas took place, causing an explosion which killed Werschuk and Natali, and severely burnt six other workmen.

The fatal accident which occurred to Maurice Constantin on February 5th, in the mine operated by the Brazeau Collieries, Ltd., at Nordegg, was caused through a fall of coal. He was undermining coal at the face of No. 6 Incline, when a piece of coal dropped off of the face, knocking him off the bench, fracturing his ribs, which pierced his lungs, from the effects of which he died whilst being removed from the mine.

The fatal accident which occurred to G. Flumigani on February 13th, in the mine operated by the Chinook Coal Co., Ltd., at Commerce, was caused through his being caught between the cage seat and side of the hoisting shaft. He was engaged as pumpman on the night shift below ground; and, wishing to come to the surface, had signalled the engineer, to which the engineer gave the return signal, after which Flumigani gave the hoist signal. The engineer hoisted the cage to the surface landing, and, not hearing anything from the cage, went out to investigate, when he found Flumigani hanging below the cage, dead—his chin resting on the cage seat, the back of his head having been crushed in.

The fatal accident which occurred to Andrew Stewart on February 22nd, in the mine operated by the Blue Diamond Coal Co., Ltd., Brule Mines, was caused through a fall of rock and gravel. He was driving a slope, from the surface, below No. 2 South Entry, when a cave of rock and gravel took place, burying him and suffocating him.

The fatal accident which occurred to James Maggs on February 25th, in the mine operated by the Canadian Pacific Railway Department of Natural Resources, at Bankhead, was caused through a fall of coal.

He was mining coal in pillar workings when a fall of coal took place, striking him on the head, fracturing his skull at the base, from the effects of which he died shortly after.

The fatal accident which occurred to William Grant on March 21st, in the mine operated by the Canmore Coal Co., Ltd., at Canmore, was caused by a fall of rock. He was engaged helping clear a cave on the main haulage road in the sedlock seam, when some rock slipped off the side, pinning him underneath, causing injuries from the effects of which he died shortly after being taken out.

The fatal accident which occurred to Thomas Martin on April 2nd, in the mine operated by the Canadian Pacific Railway Department of Natural Resources, near Lethbridge, was through his falling in front of a loaded trip of cars. He was engaged as a gripper on the endless rope haulage, and was bringing a trip of loaded cars from the face of No. 5 face entry N.E., when in some manner he fell in front of the trip. He was found by a workman, who noticed the trip passing without anyone in charge, and went to investigate, finding Martin dead on the side of the track.

The fatal accident which occurred to Chas Zemick on April 26th, in the mine operated by the West Canadian Collieries, Ltd., Greenhill Mine, near Blairmore, was caused through his falling into the chute. He was bucking coal in a chute in pillar working, and slipped, falling into the chute; the coal, sliding down, jammed him against a plank across the chute, breaking his neck, killing him instantly.

The fatal accident which occurred to W. Booker on May 9th, in the mine operated by the West Canadian Collieries, Ltd., at Bellevue, was caused by his being crushed between loaded mine cars. He was driving a horse, bringing out a trip of loaded cars from the entry face, to couple up to two loaded cars which he had left standing at No. 56 chute. He failed to get off the cars on which he was riding, and was crushed between the moving and standing cars, receiving injuries from the effects of which he died on May 10th.

The fatal accident which occurred to L. Poch on June 1st, in the mine operated by the West Canadian Collieries, Ltd., at Greenhill, near Blairmore, was caused through a fall of coal. He was commencing work, taking out pillar, when a piece of coal fell off the side of the pillar, striking him on the head and shoulders, breaking his neck, death being instantaneous.

The fatal accident which occurred to F. Cerney on June 8th, in the mine operated by the West Canadian Collieries, Ltd., at Bellevue, was caused through his being crushed between timber and corner of coal pillar. He was engaged in packing timber, and was helping another timber-packer to carry a piece of timber, and stepped between some loaded cars on the entry, when the horse which was attached to the loaded cars started. One end of the timber being between the cars was carried forward, crushing Cerney between the timber and the corner of the pillar, causing injuries from which he died immediately.

The fatal accident which occurred to George Basso on July 6th, in mine operated by the Blue Diamond Coal Co., Ltd., at Brule Mines was caused through a scratch on the back of his hand becoming infected. He was sawing a prop, when the saw jumped, and scratched the back of his hand, which became infected, causing blood poisoning, from the effects of which he died on July 13th, 1921.

The fatal accident which occurred to James Gosling on July 7th, at the mine operated by the Canadian Pacific Railway Department of Natural Resources, at Bankhead, was caused through his being crushed between loaded mine cars and compressed air locomotive. He was attempting to uncouple a tow chain which was attached to a trip of loaded cars, and, failing to do so, became confused, and was crushed between cars and locomotive, receiving injuries from the effects of which he died shortly afterwards.

The fatal accident which occurred to C. Santi on August 17th, in the mine operated by the Mountain Park Coal Company, Limited, Mountain Park, was caused through a fall of coal while timbering. He was assisting two other miners in putting up a set of timber at the face of B Entry, No. 3 East Slope, when a piece of top coal fell, displacing the timber, which fell on to Santi, fracturing his spinal column, from the effects of which he died in the Royal Alexandra Hospital, Edmonton, on December 27th, 1921.

The fatal accident which occurred to Robert Richards on October 26th, in a mine operated by the Atlas Coal Co., Ltd., at Drumheller, was caused through a fall of roof. He was loading coal at the face of No. 16 Room off No. 3 West Entry, when a piece of rock fell from the roof, striking him on the back, breaking same, and badly crushing him internally, from the effects of which he died.

The fatal accident which occurred to Pete Chernuk on November 14th, in the mine operated by the Mountain Park Coal Co., Ltd., at Mountain Park, was caused through a fall of coal. He was working a pillar off No. 1 Room of B Level, No. 3 Mine, when a cave of roof coal took place, burying him at the face of a crosscut. The body was not recovered until two days afterwards.

The fatal accident which occurred to E. A. Watkins on November 25th, in the mine operated by the Great West Coal Co., Ltd., at Aerial, was caused through a fall of rock. He was working at the face of No. 3 Room, when a piece of rock fell out of a pot-hole in the roof, striking him on the back, fracturing his spine, and causing injuries, from which he died.

The fatal accident which occurred to Leslie A. McMillan on December 29th, in the mine operated by the Mountain Park Coal Company, Limited, at Mountain Park, was caused through his being crushed between mine cars and timber. He was driving a horse on B Level, No. 3 East Slope, hauling out trip of loaded cars. The spragger missed the spraggs, which allowed the cars to travel at too high a speed. McMillan jumped off the trip, and was crushed between mine cars and a post on the side of the entry, receiving internal injuries, from the effects of which he died on December 31st, 1921, whilst being conveyed to hospital in Edmonton.

TABLE SHOWING ACCIDENTS AS THEY OCCURRED BY MONTHS DURING THE YEAR 1921.

Months	Above Ground				Below Ground				Total Above and Below ground
	Fatal	Serious	Slight	Total	Fatal	Serious	Slight	Total	
January.....	1	1	1	5	5	11	12

LIST OF PROSECUTIONS UNDER THE MINES ACT DURING 1921.

Mine in which contravention was committed	Description of Defendant	Offence Charged	Result of Proceedings	Penalty	Costs
North American Collieries, Ltd. (Coalhurst).....	Miner.....	Storing powder in his working place	Convicted.....	Fined \$50.....	\$5.65
Jasper Park Collieries, Ltd.....	Miner.....	Having matches in his possession	Convicted.....	Fined \$50.....	7.50
Blue Diamond Coal Co., Ltd.....	Driver.....	Injury to horse, not taking proper care	Convicted.....	Fined \$50 or three months.....	7.00
Blue Diamond Coal Co., Ltd.....	Driver.....	Leaving horse loose in the mine, thus endangering the horse by accident.....	Convicted.....	Fined \$5 or thirty days.....	7.00
West Canadian Coll. Ltd. (Greenhill Mine).....	Miner.....	That he did have in his locker in the wash-house five electric detonators	Convicted.....	Fined \$25.....	7.25
Chinook Coal Co., Ltd.....	Loader.....	Did have in his possession a pipe when underground.....	Convicted.....	Fined \$2.50 or fourteen days.....	None
Yellowhead Coal Company.....	Miner.....	That he did an act likely to cause danger to the mine, or to any person.....	Convicted.....	Three months' imprisonment Fort Saskatchewan.....	None
Brazeau Collieries, Ltd.....	Track-layer.....	Riding on trip without authority.....	Convicted.....	\$40 fine or thirty days' hard labor.....	\$4.50
Brazeau Collieries, Ltd.....	Pusher.....	Striking driver in the face at the barn at the mine.....	Convicted.....	\$40 fine or thirty days.....	5.25
Brazeau Collieries, Ltd.....	Pusher.....	Damaging electric safety lamp.....	Convicted.....	Fined \$10.....	None
Jasper Park Collieries, Ltd.....	Miner.....	ly neglect to use the greatest precaution in the care and handling of explosives in said mine, wherein safety lamps are required to be used; to wit, did leave in the aforesaid mine four sticks of explosives, unused, which remained in the possession of miner, and did not bring said explosive out of the mine and return it at once to the place of storage provided for that purpose.....	Convicted.....	Fined \$25.....	6.00

LIST OF PROSECUTIONS.—(Continued).

Mine in which contravention was committed	Description of Defendant	Offence Charged	Result of Proceedings	Penalty	Costs
Jasper Park Collieries, Ltd.	Miner.....	Did unlawfully, negligently, and carelessly neglect to use the greatest precaution in the care and handling of explosives in said mine, wherein safety lamps are required to be used; to wit, did leave in the aforesaid mine four sticks of explosives unused, which remained in the possession of said miner, and did not bring the said explosive out of the mine and return it at once to the place of storage provided for that purpose.....	Convicted.....	Fined \$25.....	\$6.00
Blairmore Coal Co., Ltd.	Mine Operators...	That they did fail to make returns of operations to the Minister for the month of April, 1921.....	Convicted.....	Fined \$5.....	4.50
North American Coll., Ltd. (Nacmine).....	Examiner.....	Firing shot in Monarch mine without first seeing that all persons were out of reach of danger from effect of the shot, in that and the adjoining place as required by Subsec. 2, Sec. 111 of The Mines Act.....	Convicted.....	Fined \$100.....	4.00
Cadomin Coal Co., Ltd.	Miner.....	That he did have in his possession in the mine two keys for relighting safety lamps without authority from the manager.....	Convicted.....	Fined \$10 or one month.....	7.80
Cadomin Coal Co., Ltd.	Miner.....	That he did have in his possession in the mine two keys for relighting safety lamps without authority from the manager.....	Convicted.....	Fined \$10 or one month.....	7.80
Cadomin Coal Co., Ltd.	Timber Packer...	That he did have three matches on his person in the mine.	Convicted.....	Fined \$10 or one month.....	7.80

LIST OF PROSECUTIONS.—(Continued).

Mine in which contravention was committed	Description of Defendant	Offence Charged	Result of Proceedings	Penalty	Costs
Cadomin Coal Co., Ltd.	Timber Packer.	That he did have a partially smoked cigarette on his person in the mine.	Convicted.	Fined \$10 or one month.	\$7.80
John Miklik.	Operator.	That he did fail to make returns to the Minister, as required for operations at his mine.	Convicted.	Fined \$10.	4.50
Regal Collieries, Ltd.	Operator.	Failed to pay taxes for November and December, 1920.	Convicted.	Fined \$10.	8.00
West Canadian Coll., Ltd. (Greenhill Mine)	Examiner.	That he did fire a shot before taking such precautions as were necessary to prevent a miner inadvertently approaching the same in No. 5 entry.	Convicted.	Fined \$75.	12.00
L. Bobier.	Miner.	Did operate a mine without notifying the Minister and District Inspector of Mines as required by The Mines Act.	Convicted.	Fined \$3.	None
L. Bobier.	Miner.	Did operate a mine without having underground workings in charge of certificated person.	Convicted.	Fined \$2.	1.00
William Bolze.	Farmer.	Did operate a mine without notifying the Minister and District Inspector of Mines.	Convicted.	Fined \$3.	None
William Bolze.	Farmer.	Did operate a mine without having the underground workings in charge of a certificated person.	Convicted.	Fined \$2.	1.00
Dennis Blair.	Farmer.	Did operate a mine without notifying the Minister and District Inspector of Mines.	Convicted.	Fined \$3.	1.00
William Schamehorn.	Mine Operator.	Did fail to have the underground workings of his mine in charge of certificated person.	Convicted.	Fined \$50.	1.75

LIST OF PROSECUTIONS.—(Continued).

Mine in which contravention was committed	Description of Defendant	Offence Charged	Result of Prosecutions	Penalty	Costs
Ardley Hardite Coll., Ltd.....	Mine Operator...	Did fail to pay wages earned from 16th day of November, 1921, to the 30th day of November, 1921.....	Convicted.....	Fined \$100.....	\$9.50
Cadomin Coal Co. Ltd.....	Miner.....	That he did have in his possession in the mine two keys for relighting safety lamps without authority from the Manager.....	Convicted.....	Fined \$10 or 1 month.....	7.80

CROW'S NEST PASS DISTRICT—DISTRICT NO. 1

✓ *Hillcrest Collieries Limited (Mine No. 40).*

Mine Office: Hillcrest.
 Head Office: 160 St. James Street, Montreal, Quebec.
 Authorized Capital: \$3,000,000.00.
 President: Sir Charles Gordon, C.B.E.
 Directors: Sir Herbert Holt, G. H. Duggan, J. M. Mackie, M. P. Davis,
 R. G. Drinnan, C. R. Hamilton, K. C. Nelson, C. P. Hill, Charles Meredith.
 Managing Director and Secretary: J. M. Mackie.
 General Manager: William Stevenson, Jr.
 Treasurer: Frank J. Smith.
 Mine Manager: Thomas O. Davies.
 Overman: John Ironmonger.
 Examiners: George Bainborough, William Adlam, J. W. Makin, Dan C. Kyle,
 Henry Instone, Dennis Convery, Fred Willets, Frank Lote, Harry Fisher,
 Charles Evans, John Mackie, John Madison.
 Mine Surveyor: David S. Hutchinson.
 Location of Mine: N.E. $\frac{1}{4}$, Sec. 18, Tp. 7, Rge. 3, W. of the 5th Mer.
 Area: 4120 acres. Character of Coal: Bituminous.

The mine is situated near Hillcrest, on the Crow's Nest Branch of the Canadian Pacific Railway.

The seam being worked is the No. 1, which is from 15 to 18 feet thick, pitching at an angle of 30 degrees in a westerly direction.

The mine is entered by means of two slopes, which have been driven approximately 4,000 feet, with levels turning to right and left off the slopes. Off the No. 1 slope there are five levels turned to the south and off the No. 2 slope seven levels to the north.

The method of working is room and pillar; the slopes are driven 7 feet high by 12 feet wide, the gangways are driven 10 feet wide by thickness of seam, the rooms are driven up the pitch 12 feet wide by 14 feet high, with pillars between rooms 50 feet square.

The capacity of the plant is 1400 tons per day of 8 hours, the mine cars holding two tons. Workmen use cap lamps of the Edison Electric type, officials using both Wolf flame safety and Electric Lamp.

The haulage on the entries is by horses, and on the slopes by direct haulage by steam driven hoists.

The following additions have been made to the plant:

Three electrically driven Centrifugal Pumps, one 6 ft. Sullivan Reversible Fan, with capacity of 100,000 cubic feet per minute, electrically operated, with automatic water gauge, one Cross Compound Robb Armstrong Corliss Condensing Engine, direct connected to a 400 K.V.A. Generator, one Ingersoll Rand Duplex Type Cross Compound Air Compressor, and one electrically operated Marcus screen.

West Canadian Collieries Limited. (Bellevue Mine No. 87).

✓ Mine Office: Bellevue.
 Head Office: 3 London Wall Buildings, London, E.C.2. England.
 Head Office in Canada: Blairmore, Alberta.
 Authorized Capital: \$3,600,000.00.
 President: Alphonse Wicari.
 Vice-President: Edmund Ory.
 Vice-President in Canada and General Manager: J. Charbonnier.
 Directors: Edouard Decoster, Edouard Carlier, Baron R. de la Grange Otard,
 Jean Cuvrois, Henry Maitland Kersey, Edouard Ranson, Hon. Senator
 Raoul Dandurand, Hon. Rodolphe Lemieux, Alphonse Wicari, Edmund
 Ory and Jules Charbonnier.

 Overmen: A. Hallworth, N. MacDonald.
 Examiners: H. Blake, R. Brown, G. Coupland, H. Hutton, D. Hutton,
 H. Smith, W. Prescott, S. Richards.
 Mine Surveyor: M. Piard.
 Master Mechanic: A. B. Carr.
 Location of Mine: No. 2 mine, L.S. 16, Sec. 29, Tp. 7, Rge. 3, W. of the 5th Mer.

No. 1 mine, L. S. 10, Sec. 20, Tp. 7, Rge. 3, W. of the 5th Mer.

Area: 1880 acres. Character of Coal: Bituminous.

The mine is situated at Bellevue, on the Crow's Nest Branch of the Canadian Pacific Railway.

The seam being worked is the No. 1, which is from 13 to 16 feet thick, pitching from 30 to 35 degrees in a westerly direction.

The mine is entered by means of drifts driven in from the outside at different elevations, the Nos. 1 to 6 levels being above drainage level. Off No. 6 level a slope has been driven a distance of 2000 feet in length, off which has been turned the No. 7 level; the slope has a pitch of 12 degrees.

The method of working is room and pillar, with the rooms straight up the pitch, rooms being 12 feet in width, and turned off at 65 feet centres.

Haulage on the levels is done with compressed air locomotives, and on the slope by an electrically-operated hoist, which is located on the surface.

The plant has a capacity of 1,700 tons per day of 8 hours, the mine cars holding 2.9 tons.

Workmen use cap lamps of the Edison Electric type, officials using both Wolf Flame Safety and Electric lamps.

The following additions have been made to the plant:

A new wash-house, 50 ft. by 90 ft, built of hollow tile, with stucco finish, in which there are 300 steel lockers and all necessary accommodation for the workmen to wash and change. A room has been reserved as an emergency hospital, containing two beds and first aid supplies. The water for the wash-house is heated in a separate building, in which there is installed a 70-H.P. Return Tubular Boiler. One double inlet fan, capacity 100,000 cubic feet per minute, operated electrically by a 75-H.P. induction motor, one electrically operated rotary dump with car hauls for loaded and empty cars, a lump coal picking belt, two 3-inch Cameron Pumps, one 3-inch high pressure air line 5,000 feet in length, one 35-H.P. and one 200-H.P. electrically operated hoist, one 12 by 12 hollow tile stucco finished powder thaw-house, one electrically operated box car loader, one 400 K.V.A. Alternating Current Generator.

✓ *International Coal & Coke Company, Limited. (Mine No. 88).*

Mine Office: Coleman.

Head Office: Coleman.

Authorized Capital: \$3,000,000.00.

President: A. C. Flumerfelt.

Directors: A. C. Flumerfelt, Jas. Black, C. S. Houghton, R. W. Riddell.

Secretary: J. Emerson.

Treasurer: A. S. Wyllie.

General Manager: O. E. S. Whiteside.

General Superintendent: O. E. S. Whiteside.

Mine Manager: David Davies.

Overman: John Cox.

Assistant Overman: T. Badham.

Examiners: A. J. Brown, T. Fynn, R. M. Greenhalgh, W. White.

Mine Surveyor: Luke Lindoe.

Master Mechanic: J. Scott.

Location of Mine: Sec. 8, Tp. 8, Rge. 4, West of the 5th Mer.

Area: 4,410 acres. Character of Coal: Bituminous.

The mine is located at Coleman, on the Crow's Nest Branch of the Canadian Pacific Railway.

There are two seams being operated at this mine, the No. 2 and No. 4, the No. 2 seam having an average thickness of 16 feet and the No. 4, 7 feet, the average pitch of both seams being 31 degrees in a westerly direction.

The mine is entered by means of a drift driven in a distance of approximately two and a half miles. The coal above this level has been extracted.

The present workings are to the dip of this level, off which slopes have been driven on the full pitch in the No. 4 seam. Levels have been turned at 600 and 1200 feet respectively, and sinking of the slope is being continued. Off the 600 and 1200 foot levels, cross measure drifts have been driven to No. 2 seam. No. 2 "B" level is in a distance of 2 miles from the slope, which is the limit it is intended to drive, the pillars being extracted from the inside end. No. 2 "C" level is in a distance of 1,000 feet, no rooms having been opened up. The No. 4 "B" level has been driven a distance of 1 mile. A second mine has been opened on the north side of the track by means of a drift, and a slope has been put down and No. 2 "B" level broken off. This slope is being continued down to "C" level.

The method of working is room and pillar, rooms being 10 feet wide by height of seam, pillars varying from 50 to 100 feet in width between rooms as the overlying strata increases in thickness.

Workmen use cap lamps of the Edison Electric type, officials using both Wolf Flame Safety and Electric Lamps.

Mohawk Bituminous Mines, Limited. (Mine No. 133).
(Formerly the Maple Leaf Coal Company Limited)

Mine Office: Bellevue.

Overman: Hector Macdonald.

Location of Mine: Secs. 16 and 21, Tp. 7, Rge. 3, West of the 5th Mer.

This mine was re-opened by the Bellevue Collieries, Ltd., in 1919 and was taken-over by the Mohawk Bituminous Mines, Ltd., in 1921.

The mine is being operated on the No. 1 seam, which has a thickness of $4\frac{1}{2}$ feet, on a pitch of 60 degrees with sandstone roof and pavement.

No improvements have been made at this mine, the output being 50 tons per day

✓ *McGillivray Creek Coal & Coke Company, Limited. (Mine No. 204.)*

Mine Office: Coleman.

Head Office: Coleman.

Authorized Capital: \$3,000,000.00.

President: James A. Nowell.

Directors: James A. Nowell, L. A. Campbell, Fitzhugh Burns, George Kellock.

Secretary-Treasurer: A. F. Short.

General Manager: George Kellock.

Mine Manager: David Davidson.

Overmen: J. O. C. MacDonald, A. Dewar.

Examiners: H. Gates, T. Parry, R. Holmes, I. A. James, W. Hopkins,

J. Kellock, H. Dunlop, J. T. Griffiths,

Mine Surveyor: W. E. G. Hall

Master Mechanic: Herdman McCleod.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 17, Tp. 8, Rge. 4, W. of the 5th Mer.

Area: 640 acres.

Character of Coal: Bituminous.

The mine is located at Coleman, on the Crow's Nest Branch of the Canadian Pacific Railway.

Operations are carried on in the No. 2 seam, which has a thickness of from 10 to 15 feet, pitching 28 to 32 degrees in a westerly direction.

The mine is opened up by means of three slopes driven on the full pitch of the seam, off which levels are driven in a northerly direction, with rooms up the pitch.

The method of working is room and pillar, with rooms 10 feet wide by thickness of seam, pillars between rooms 50 feet square. The slopes are located about a mile from the tippie, which is located near the main line of the C.P.R., coal being hauled from the mine to the tippie by electric locomotives of the trolley type. A rock tunnel 3,500 feet in length has been driven from tippie level and connected with the mine workings at the No. 1 level. This will reduce the haulage to the tippie by at least one mile, also doing away with the long outside haul, which gave considerable trouble during the winter.

Cap lamps of the Edison Electric type, also Wolf Flame type safety lamps, are in use by the workmen and officials.

West Canadian Collieries Limited (Greenhill Mine). (Mine No. 396.)

Smith, C. Thomason, R. Hayes, G. Evans, A. Pitt, J. A. MacDonald,

W. North, T. Barnes, M. Hamilton, D. Kemp.

Master Mechanic: John McPhail.

Mine Surveyor: Owen Morgan.

Location of Mine: N.W. $\frac{1}{4}$ Sec. 2, Tp. 8, Rge. 4, W. of the 5th Mer.

Area: 2,400 acres.

Character of Coal: Bituminous.

This mine is located at Blairmore, on the Crow's Nest Branch of the Canadian Pacific Railway.

The seam being worked is the No. 1, which has a thickness of from 12 to 17 feet, pitching 35 degrees in a westerly direction.

The mine is opened by means of levels driven in the face of the mountain at different elevations, the No. 3 level being 450 feet above the tippie, and the No. 5 is driven in at tippie level.

Method of working is room and pillar, rooms being driven both up the pitch and across the pitch at an angle.

Haulage on No. 3 level is done by main and tail rope system for the first $1\frac{1}{2}$ miles, and from this point to face of the entry by horses. The coal is lowered to tippie level from No. 3 by a self-acting incline. Haulage on No. 5 level is done entirely by horses.

Workmen all use cap lamps of the Edison Electric type, officials using both an Edison Electric and Wolf Flame type Safety lamp.

The plant has a capacity of 2,500 tons in 8 hours, the mine cars holding 2 tons.

A new complete tippie and screening facilities have been installed with an electrically driven rotary dump and car hauls, for both loaded and empty cars, has been constructed on the bench above the railroad.

The following improvements have been made to the plant:

50 x 90 hollow tile stucco wash-house building, in which has been installed 300 steel lockers and sprays, also a room for an emergency hospital. The heating of the water for the wash-house is done in a separate building, containing a 70 H.P. return tubular boiler and water tank. One 150 H.P. main and tail rope haulage engine, two 80-H.P. return tubular boilers, and one 30 H.P. electrical hoist.

Blairmore Coal Company, Limited. (Mine No. 802.)

Mine Office: Blairmore.

Head Office: Blairmore.

Authorized Capital: \$600,000.00.

President: A. Mutz.

Directors: T. F. Saunders, A. Doyle, W. H. Harwood, F. Wassen.

Secretary-Treasurer: J. H. Farmer.

Overman: John Jackson.

Surveyor: W. E. G. Hall.

Location of Mine: E. $\frac{1}{2}$ Sec. 34, Tp. 7, Rge. 4, W. of the 5th Mer.

Character of Coal: Bituminous.

The mine is located at Blairmore, on the Crow's Nest Branch of the Canadian Pacific Railway, to which it is connected by a spur one mile long.

The No. 2 seam which is being worked has an average thickness of $6\frac{1}{2}$ feet, pitching 45 degrees in a westerly direction, being considerably faulted.

The mine is entered by means of levels driven in from the face of the hill, the main entry having been driven a distance of 2,000 feet from the outcrop. Safety lamps of the Wolf type are in use throughout the mine.

The plant consists of an electrically operated Murphy Fan, which has a capacity of 25,000 cubic feet per minute, and one gasoline operated Air Compressor.

H. E. Perlin. (Mine No. 850.)

Mine Office: Coleman.

Overman: R. T. Stewart.

Location of Mine: Sec. 35, Tp. 7, Rge. 5, W. of the 5th Mer.

This property was formerly operated by the Alberta Crow's Nest Coal Company, Limited. The work consisted of prospecting in an endeavor to find a workable seam. Considerable work has been done on different parts of the property, but no seam of commercial value has yet been found, work being finally abandoned September, 1921.

PINCHER CREEK DISTRICT.—DISTRICT NO. 2.

Charles E. Cartwright. (Mine No. 59.)

Mine Office: Lundbreck.

Operator: Charles E. Cartwright.

Overman: Charles E. Cartwright.

Surveyor: J. L. Parker.

Location of Mine: N.E. $\frac{1}{4}$ Sec. 26, Tp. 7, Rge. 2, W. of the 5th Mer.

Area: 180 acres.

Character of Coal: Domestic.

The seam being worked has a thickness of from 8 to 10 feet of coal, with soft shale floor and roof, pitching 60 degrees in a westerly direction, the thickness of cover being about 100 feet.

The mine is entered by a slope 6 feet high by 6 feet wide and 150 feet long, on a pitch of 14 degrees, up which the cars are hauled to the surface by mean of a gasoline operated hoist.

The output is about 10 tons per day, the coal being consumed locally.
Safety lamps of the Wolf type are in use.

Glacier Coal Co., Ltd. (Mine No. 76.)

Mine Office: Lundbreck.

Head Office: Old National Building, Spokane, Washington.

President: J. A. Bevan.

Operator: Wm. Ashurst.

Secretary-Treasurer: Oscar Cain.

Overman: Wm. Ashurst.

Mine Surveyor: J. L. Parker.

Character of Coal: Domestic.

Location of Mine: Sec. 23, Tp. 7, Rge. 2, W. of the 5th Mer.

This mine is located near Lundbreck, on the Crow's Nest Branch of the Canadian Pacific Railway, and was formerly operated by the Alberta Coal & Coke Company, Ltd., being abandoned by this Company in 1909.

The mine is opened by means of a slope, is driven on a pitch of 30 degrees for a distance of 250 feet, from which a level has been turned off in the seam.

The output averages 20 tons per day, the bulk of which is shipped to Spokane, the balance being sold locally.

A tippie has been erected at this mine, with bunker capacity of 50 tons; also a 25 H.P. steam hoist has been installed for hoisting mine cars up the slope, steam being supplied by a vertical boiler, the intention being to develop the mine to a capacity of 200 tons per day.

Safety lamps of the Wolf type are in use throughout the mine.

J. H. Owens. (Mine No. 295.)

Mine Office: Pincher Creek.

Overman: John Solus.

Mine Surveyor: J. F. Hamilton.

Location of Mine: N.W. $\frac{1}{4}$ Sec. 10, Tp. 5, Rge. 1, W. of the 5th Mer.

Area: 40 acres.

Character of Coal: Domestic.

This mine is located $12\frac{1}{2}$ miles south-west of Pincher Creek, and is entered by means of a cross measure drift 7 feet in height by 8 feet in width, 150 feet in length.

The seam has an average thickness of 8 feet, with sandstone roof and floor, pitching 25 degrees in a south-westerly direction, with cover 250 feet in thickness.

The mine has a capacity of 50 tons, all coal being sold locally. Open lights are used throughout the mine.

Sparrow and Murtland. (Mine No. 715.)

Mine Office: Pincher Creek.

Overman: Thomas J. Sparrow.

Mine Surveyor: J. F. Hamilton.

Location of Mine: S.W. $\frac{1}{4}$ Sec. 16, Tp. 5, Rge. 1, W. of the 5th Mer.

Character of Coal: Domestic.

Owners: Thomas Sparrow and R. Murtland.

This mine is located 14 miles south-west of Pincher Creek, and is entered by means of a cross measure drift 8 feet high by 8 feet wide, and 50 feet in length.

The seam has a thickness of 7 feet, with sandstone roof and pavement, pitching 25 degrees in a south-westerly direction.

The mine produces an average output of 50 tons per day, which is consumed locally.

Open lights are used throughout the mine.

George Ballantyne. (Mine No. 199.)

Formerly operated by the Canadian Coal & Coke Co.

Mine Office: Beaver Mines.

Overman: William Koerner.

Location of Mines: Secs. 9-10, Tp. 6, Rge. 2, W. of the 5th Mer.

This mine is being operated on the No. 1 Seam, the coal being sold for local consumption.

The output is from 10 to 15 tons of coal per day.

J. Mikilik. (Mine No. 330.)

Mine Office: Pincher Creek

Overman: J. Mikilik.

Location of Mine: Sec. 25, Tp. 5, Rge. 2, W. of the 5th Mer.

✓ LETHBRIDGE DISTRICT.—DISTRICT NO. 3.

*Department of Natural Resources, Canadian Pacific Railway Company.
(Mine No. 3.)*

Mine Office: Lethbridge.
Head Office: Montreal, Quebec.
President: E. W. Beatty.
Vice-President: Grant Hall.
Directors: A. B. Angus, E. W. Beatty, Hon. Frederick L. Beique, Sir John C. Faon, Grant Hall, Sir Herbert S. Holt, C. R. Hosmer, Col. Frank S. Meighen, Sir Vincent Meredith, Sir Augustus M. Nanton, Sir Edmund B. Osler, J. K. L. Ross, Hon. Lord Shaughnessy, Hon. Wm. J. Shaughnessy, Sir Thomas Skinner.
Secretary: Ernest Alexander.
Treasurer: H. E. Suckling.
General Manager: P. L. Naismith.
General Superintendent: Lewis Stockett.
Mine Manager: Robert Livingstone.
Mine Surveyor: W. Meldrum.
Area: 15,115 acres. Character of Coal: Domestic.

No. 3 MINE

Overmen: John C. Livingstone, George Taylor.
Examiners: John Parks, R. Scott, A. Parks, L. E. Huff.
Master Mechanic: John Scott.
Location of Mine: L.S. 13, Sec. 6, Tp. 9, Rge. 21, W. of the 4th Mer.

No. 6 MINE

Overman: Wm. Crawford.
Examiners: D. Coutts, J. A. Cooper, R. Clark, J. Hamilton, T. Mossey, J. Moore, J. McGowan, J. Stewart, G. Hargreaves, W. Goldie, J. Miller, T. Worthington, W. J. Robertson.
Master Mechanic: J. A. Carruthers.
Location of Mine: L.S. 15, Sec. 18, Tp. 9, Rge. 21, W. of the 4th Mer.
The Lethbridge seam, which is being worked, has a thickness of 4 ft. 4 inches, with shale roof and pavement, and is worked on the room and pillar system, all coal being undercut by compressed air machines of the Puncher type.
The main haulage is by means of endless rope, horses being used for gathering from working faces.
Both mines are entered by shafts, the No. 3 shaft being 8 feet by 15 feet by 300 ft. in depth, and the No. 6 shaft 19 ft. by 18 ft. by 400 ft. in depth.
The plant at the No. 3 mine has a capacity of 800 tons per day, the mine cars holding 2,000 lbs. The plant at No. 6 mine has a daily capacity of 1,600 tons, the mine cars holding 2,500 lbs.
Cap lamps of the Wico Electric type are used by all workmen in the No. 6 mine except machine men, who are using lamps of the Ceag electric hand type.
Open lights are used in No. 3 mine.
The following additions to the plant have been made:
One 500-H.P. Battery B. & W. Water tube boilers, one 40-foot Marcus picking table, and four spiral apparatus and conveyors for cleaning and handling nut coal.

✓ *Donaldson & Tennant. (Mine No. 54.)
(Formerly operated by Federal Coals Limited)*

Mine Office: Lethbridge.
Manager: C. S. Donaldson.
Overman: R. Tennant.
Mine Surveyor: C. S. Donaldson.
Location of Mine: L.S. 5, Sec. 36, Tp. 8, Rge. 22, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Owners of Property: Federal Coals Ltd., Box 386, Montreal, Que.
This mine is located on the west bank of the Old Man River, near Lethbridge, and is entered by means of drifts driven in from the outcrop.
The Lethbridge seam which is being worked has a thickness of 4 feet 4 inches, with shale roof and pavement, the cover varying from 50 to 300 feet in thickness.
The coal is conveyed across the river by an aerial rope tramway, from which point it is hauled by teams to the railroad.
The plant has a capacity of 50 tons per day, the mine cars holding 1,200 lbs.

North American Collieries Limited. (Mine No. 174.)

✓ Mine Office: Coalhurst.
 Head Office: 908 Lancaster Bldg., Calgary, Alberta.
 Authorized Capital: \$1,000,000.00
 President: H. A. Lovett, K.C.
 Vice-President: Hugh Mackay.
 Directors: J. W. Pyke, R. M. Ballantyne, N. Curry, J. M. Mackie.
 Secretary-Treasurer: W. W. Berridge.
 General Manager: W. J. Dick.
 Mine Manager: D. H. Quigley.
 Overman: J. D. Keith.
 Examiners: M. McNabb, J. Ferguson, J. McPherson, James Lindsay, S. T. Wright, John Lindsay, S. Dixon, J. Higney, John Loxton, George Loxton.
 Mine Surveyor: J. H. Turner.
 Master Mechanic: W. McMahon.
 Location of Mine: L.S. 2, Sec. 21, Tp. 9, Rge. 22, W. of the 4th Mer.
 Area: 8,000 acres. Character of Coal: Domestic.
 Owner of Property: North American Collieries, Ltd.
 This mine is located at Coalhurst, northwest of Lethbridge.
 The Lethbridge seam which is being worked, has a thickness of 4 ft. 4 inches, with shale roof and pavement.
 The mine is entered by means of shafts 582 feet deep.
 The mine is worked on the room and pillar system, the coal being undercut by compressed air machines of the Puncher type.
 The plant has a capacity of 1,200 tons per day, the mine cars holding 3,000 lbs.
 The method of haulage is by endless rope, horses being used for gathering purposes.
 Cap lamps of the Edison electric type are used throughout the mine by the workmen, officials using the Edison electric and Wolf Flame type safety lamps.
 Improvements consist of the installation of two spiral separators for cleaning nut coal.

City of Lethbridge. (Mine No. 192.)

✓ Mine Office: Lethbridge.
 Overman: Alfred Davis.
 Mine Surveyor: Alfred Davis.
 Location of Mine: L.S. 7, Sec. 36, Tp. 8, Rge. 22, West of the 4th Mer.
 Area: 40.7 acres. Character of Coal: Domestic.
 Owner of Property: City of Lethbridge.
 The Lethbridge seam which is being worked, has a thickness of 4 feet, 2 inches, with shale roof and pavement, cover having a thickness of 200 feet.
 The mine is entered by means of drifts from the bank of the Old Man River, and is worked on the room and pillar system, producing 40 tons per day.
 The total output of the mine is used by the City of Lethbridge for the power plant and Civic Offices.

New Barnes Coal Mine Company. (Mine No. 203.)

Mine Office: Royal View.
 Overman: A. E. Dupen.
 Mine Surveyor: A. Davis.
 Location of Mine: L.S. 9, Sec. 31, Tp. 9, Rge. 21, West 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 This mine is located in a coulee 5 miles north of Lethbridge, and is entered by means of drifts driven in from the outcrop.
 The Lethbridge seam which is being worked, has an average thickness of 4 ft., with shale roof and pavement, the cover being 200 ft. thick.
 All the coal at this mine is being produced from pillars.

Chinook Coal Company, Limited. (Mine No. 247.)

Mine Office: Commerce.
 Head Office: Lethbridge.
 Authorized Capital: \$3,000,000.00.
 President: W. A. Wood.
 Vice-President: Miller Lash.
 Directors: W. A. Wood, Miller Lash, R. Cassels, Dr. McCallum, R. Somerville.
 Secretary: J. A. Ready
 Treasurer: Miller Lash.

General Manager: Hugh Crawford.

Mine Manager: Moses Johnson.

Overman: David Jones.

Examiners: D. Phillips, R. Wolstencroft, W. Goodrich, H. Evans.

Mine Surveyor: Moses Johnson.

Master Mechanic: W. Simpson.

Location of Mine: L.S. 7, Sec. 12, Tp. 10, Rge. 22, West 4th Mer.

Area: 8,300 acres.

Character of Coal: Domestic.

Owner of Property: Chinook Coal Company, Limited, Lethbridge, Alta.

The Lethbridge seam which is being worked has an average thickness of 4 feet, 6 inches, with shale roof and pavement, the thickness of cover averaging 500 feet.

The mine is entered by shafts 8 ft. 6 in. wide by 17 ft. long by 440 ft. deep.

The system of working is room and pillar, the coal being undercut by compressed air machines of the Puncher type.

Cap lamps of the Edison electric type are used throughout the mine by the workmen, the officials using the Edison Electric and Wolf Flame type safety lamps.

The following improvements and additions to the plant have been made since the last report:

One 150-H.P. Return Tubular Boiler.

One A. C. Generator, 3 phase, 2300 volts, direct connected to a High Speed Steam Engine.

One 112-H.P. Allis-Chalmers Electric Hoist.

Andrew Molloy. (Mine No. 395.)

Mine Office: Picture Butte.

Overman: Andrew Molloy.

Mine Surveyor: H. R. Brown.

Location of Mine: L.S. 14, Sec. 27, Tp. 10, Rge. 21, W. of the 4th Mer.

Area: 60 acres

Character of Coal: Domestic.

The Lethbridge seam which is being worked, has a thickness of 3 ft. 4 in., with shale roof and pavement, the cover having an average thickness of 150 ft.

The mine is entered through a drift from the outcrop, and is worked on the room and pillar system.

The Lethbridge Coal Company, Limited. (Mine No. 676.)

Mine Office: Lethbridge.

Head Office: Lethbridge.

Authorized Capital: \$150,000.00.

President: W. S. Henderson.

Vice-President: Edgar Burke.

Directors: W. S. Henderson, Edgar Burke, C. C. Cook.

Secretary: Hugh McIlvenna.

Treasurer: C. C. Cook.

General Manager: C. C. Cook.

Overman: A. M. Queen.

Examiners: W. Hynd, Hugh Evans.

Mine Surveyor: J. F. Hamilton.

Master Mechanic: F. Blasko.

Location of Mine: L.S. 12, Sec. 12, Tp. 9, Rge. 22, W. of the 4th Mer.

Area: 223 acres.

Character of Coal: Domestic.

The Lethbridge seam which is being worked has a thickness of 4 ft. 6 in., with shale roof and pavement, cover having a thickness of 350 ft.

The mine is entered by means of a slope driven across the measures from the river bank, on a pitch of 21 degrees, up which the coal is hauled by an electrically operated hoist.

The system of working is room and pillar, coal being undercut by compressed air machines of the Puncher type.

The plant has a capacity of 150 tons per day.

From the mine entrance, cars are hauled up a surface slope to the tippie. After passing over gravity screens, the coal is loaded into cars having a capacity of 5 tons each, and hauled $1\frac{1}{2}$ miles over a narrow gauge railway, by a gasoline locomotive, to a siding on the Canadian Pacific Railway, and then loaded into box cars.

The power used for hoisting, screening, and pumping is purchased from the City of Lethbridge.

Open lights are used throughout the mine.

Federal Coals Limited. (Mine No. 713.)

(No. 2 Mine Closed.)

Location of Mine: L.S. 15, Sec. 36, Tp. 8, Rge. 22, W. of the 4th Mer.

Area: 40 acres. Character of Coal: Domestic.
Thickness of Seam: 4 feet 6 inches.
Thickness of Cover: 70 feet.

TABER DISTRICT. DISTRICT NO. 6.

The Canada West Coal Company, Limited. (Mine No. 105.)

Mine Office: Taber.
Head Office: Winnipeg, Manitoba.
Authorized Capital: \$2,400,000.00.
President: J. S. Hough.
Vice-President: J. R. Howard.
Directors: J. S. Hough, F. E. Kenaston, O. A. Robertson, S. H. Bowman, Jr.
Secretary-Treasurer: J. D. Sinclair.
General Manager: J. R. Howard.
Mine Manager: E. S. F. Huntrods.
Overman: E. Marsh.
Examiners: J. Head, T. Sneddon, J. Gidman, W. Vickers, J. Knox.
Mine Surveyor: E. S. F. Huntrods.
Master Mechanic: W. F. Henry.
Location of Mine: L.S. 7, Sec. 31, Tp. 9, Rge. 16, W. of the 4th Mer.
Area: 11,200 acres. Character of Coal: Domestic.

The Belly River seam, which is being worked, has an average thickness of 3 feet 6 inches, with shale roof and pavement.

The mine is entered by a slope 8 ft. high by 14 ft. wide by 294 ft. in length, pitching 18 degrees, up which the mine cars are hauled by a creeper chain.

The system of working is room and pillar, coal being undercut by compressed air operated coal-cutting machines of the Puncher type, and electrically operated machines of the Shortwall chain type.

Haulage is done by means of electrical locomotives of the trolley type on the entries, with horses from the working places.

The following additions and improvements have been made to the plant:

One 500 H.P. Watertube boiler, one 325 K.W. A.C. generator, one Keith Fan, belt connected to 40 H.P. D.C. motor, and one air compressor, capacity of 2,000 cubic feet of free air per minute.

Open lights are used throughout the mine.

Regal Collieries, Limited. (Mine No. 228.)

Mine Office: Taber.
 Head Office: Taber.
 General Manager: A. Bilteryst.
 Mine Manager: Emile Leblanc.
 Overman: Richard Martin.

Examiner: D. Miller.

Mine Surveyor: Emile Leblanc.
 Master Mechanic: W. Duncombe.

Location of Mine: L.S. 8, Sec. 19, Tp. 10, Rge. 16, W. of the 4th Mer.

Area: 780 acres. Character of Coal: Domestic.

The Belly River seam, which is being worked, has a thickness of 3 ft. 4 inches, with shale roof and pavement, having a cover of 150 ft. in thickness.

System of working is room and pillar in one section of the mine, and Longwall advancing system in the other.

The mine is entered by means of shafts.

The following additions and improvements have been made to the plant:

The shaft has been lined with concrete, a steel tippie erected equipped with Marcus screen, having a capacity of 100 tons per hour, three return tubular boilers 160 H.P. each, one air compressor, one 75 K.W. D.C. generator, one Sirocco type fan, and a spur 4½ miles long has been built, connecting the mine with the Crow's Nest Branch of the C.P.R., also twenty cottages and one wash-house have been built.

Open lights are used throughout the mine.

 H. N. Owen, H. M. Leighton, E. Hoidale, E. A. Sellhorn, A. B. Cutts,
 M. J. Gunderson, J. S. McLean.
 Secretary: S. H. Williams.
 Treasurer: E. Hoidale.
 General Manager: E. H. Sellhorn.
 Mine Surveyor: Gordon L. Kidd.
 Location of Mine: L.S. 14, Sec. 5, Tp. 13, Rge. 6, W. of the 4th Mer.
 Area: 10,083 acres. Character of Coal: Domestic.
 Owner of Property: Redcliff Brick & Coal Company, Limited.
 (Mine No. 165.)—Coal Mine.

Overman: J. M. Stratton.

The seam being worked has a thickness of 4 feet 8 inches, with shale roof and pavement, the cover being 270 feet.

Room and pillar system of working is adopted, the coal being undercut by compressed air machines of the Puncher type.

The plant has a capacity of 200 tons per day.

Open lights are used throughout the mine.

(Mine No. 765.)—Shale Mine.

Overman: J. M. Stratton.

A seam of shale 9 feet thick is being worked at this mine, the product being utilized for the manufacturing of bricks.

The plant has a capacity of 150 tons of shale per day.

Ross Clay Products Company, Limited. (Mine No. 332.)—Shale Mine.

Location of Mine: N.W. $\frac{1}{4}$, Sec. 9, Tp. 13, Rge. 6, W. of the 4th Mer.

This is a stripping pit, where 18 feet of dirt is removed to uncover a seam of shale 14 ft. thick.

No work has been done at this mine during the year.

Redcliff Pressed Brick Company, Limited. (Mine No. 379.)

 Vice-President: James Mitchell.
 Directors: James Hargreaves, A. W. Woodcock, James Mitchell, H. G. Sheasby, Dr. J. C. Hargreave, H. J. Sissons.
 Secretary-Treasurer: Herbert J. Sissons.
 General Manager: Herbert J. Sissons.
 Mine Surveyor: Gordon L. Kidd.
 Location of Mine: L.S. 5, Sec. 9, Tp. 13, Rge. 6, W. of the 4th Mer.
 Area: 80 acres. Character of Coal: Domestic.
 This mine is worked for producing shale, which is used in the brick plant, the seam is 14 ft. in thickness, with 18 ft. of cover.

J. T. Littleford. (Mine No. 602.)

Mine Office: Little Plume.
 Overman: John Burns.
 Mine Surveyor: Gordon L. Kidd.
 Location of Mine: L.S. 11, Sec. 2, Tp. 9, Rge. 5, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet.

George Bragdich. (Mine No. 689.)

Mine Office: Thelma.
 Overman: G. Bragdich.
 Mine Surveyor: G. L. Kidd.
 Location of Mine: L.S. 5, Sec. 18, Tp. 7, Rge. 2, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 10 feet.
 Thickness of Cover: Varying from 5 feet to 20 feet.

Fred Rataushk. (Mine No. 718.)

Mine Office: Eagle Butte.
 Overman: Fred Rataushk.
 Mine Surveyor: G. L. Kidd.
 Location of Mine: L.S. 15, Sec. 28, Tp. 8, Rge. 4, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.

John Oliphant. (Mine No. 772.)

Mine Office: 559 1st Street, Medicine Hat.
 Overman: John Oliphant.
 Mine Surveyor: G. L. Kidd.
 Location of Mine: L.S. 2, Sec. 5, Tp. 13, Rge. 6, W. of the 4th Mer.
 Area: 1,440 acres. Character of Coal: Domestic.
 Owner of Property: Ajax Coal & Mining Company, Ltd., Medicine Hat.
 The seam being worked has a thickness of 6 feet, with shale roof and pavement, the cover being 270 feet in thickness.
 This mine is located on the south bank of the South Saskatchewan River, 7 miles west of Medicine Hat, and is entered through a drift driven in from the outcrop.
 The method of working is room and pillar, the coal being undercut by electrically operated coal-cutting machines of the chain type.
 Electrical power is purchased from the City of Medicine Hat.
 A railway spur 7 miles in length connects the mine with the Canadian Pacific Railway, main line.

Harry Last. (Mine No. 903.)

Mine Office: Elkwater.
 Overman: John Hart.
 Mine Surveyor: Gordon L. Kidd.
 Location of Mine: L.S. 16, Sec. 23, Tp. 8, Rge. 3, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.

Shaw, David & Taylor. (Mine No. 838.)

Mine Office: Suffield.
 Overman: Fred Whittlesea.
 Location of Mine: L.S. 7, Sec. 28, Tp. 12, Rge. 10, W. of the 4th Mer.
 Area: 120 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet 2 inches.
 Thickness of Cover: 120 ft.

Jacob J. Schock. (Mine No. 925.)

Mine Office: Thelma.
 Overman: Floria Domitrescu.
 Location of Mine: L.S. 16, Sec. 12, Tp. 7, Rge. 3, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 ft.
 Thickness of Cover: 150 feet.

Aaron Smith & D. Turner. (Mine No. 936.)

Mine Office: Suffield.
 Overman: Aaron Smith.
 Location of Mine: L.S. 1, Sec. 29, Tp. 12, Rge. 10, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 2 feet.
 Thickness of Cover: 90 ft.

ALDERSYDE DISTRICT.—DISTRICT NO. 9.

George Rhodes. (Mine No. 136.)

Mine Office: Long Coulee.
 Overman: George Rhodes.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 7, Sec. 8, Tp. 15, Rge. 22, W. of the 4th Mer.
 Area: 10 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet.
 Thickness of Cover: 80 feet.

Charles Farrell. (Mine No. 151.)

Mine Office: Reid Hill.
 Overman: Charles Farrell.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 15, Sec. 24, Tp. 16, Rge. 23, W. of the 4th Mer.
 Area: 80 acres. Character of Coal: Domestic.
 Thickness of Seam: 2 feet.
 Thickness of Cover: 30 feet.

Isaac Bennett. (Mine No. 224.)

Mine Office: Armada.
 Overman: Isaac Bennett.
 Location of Mine: L.S. 16, Sec. 29, Tp. 16, Rge. 21, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 2 feet 6 inches.
 Thickness of Cover: 30 feet.

J. W. Ashmore. (Mine No. 296.)

Mine Office: Champion.
 Overman: J. W. Ashmore.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 1, Sec. 8, Tp. 16, Rge. 23, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet.
 Thickness of Cover: 40 feet.

Marguerita Blusson. (Mine No. 476.)

Overman: Frank Howard.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 9, Sec. 33, Tp. 15, Rge. 23, W. of the 4th Mer.
 Area: 80 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet 6 inches.
 Thickness of Cover: 35 feet.

Evan Munton. (Mine No. 685.)

Mine Office: Long Coulee.
 Overman: Evan Munton.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 4, Sec. 17, Tp. 15, Rge. 21, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet 6 inches.
 Thickness of Cover: 75 feet.

Ira E. Watkins. (Mine No. 739.)

Mine Office: Champion.
 Overman: W. E. Watkins.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 4, Sec. 9, Tp. 16, Rge. 23, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet.

Alec Fraser. (Mine No. 758.)

Mine Office: Carmangay.
 Overman: Alec Fraser.
 Mine Surveyor: A. W. Baxter.
 Location of Mine: L.S. 14, Sec. 25, Tp. 14, Rge. 22, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 2 feet 3 inches.
 Thickness of Cover: 85 feet.

Henry Farrar. (Mine No. 777.)

Mine Office: Lomond.
 Overman: Henry Farrar.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 9, Sec. 28, Tp. 15, Rge. 21, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet.
 Thickness of Cover: 20 feet.

James Ellis. (Mine No. 910.)

Overman: James Ellis.
 Mine Surveyor: J. A. H. Church.
 Location of Mine: L.S. 1, Sec. 4, Tp. 16, Rge. 23, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.

H. McNaughton. (Mine No. 929.)

Mine Office: Champion.
 Overman: H. McNaughton.
 Location of Mine: L.S. 1, Sec. 4, Tp. 16, Rge. 21, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet.
 Thickness of Cover: 30 feet.

HIGH RIVER DISTRICT.—DISTRICT NO. 10.

A. D. McPherson. (Mine No. 30.)

Mine Office: Black Diamond.
 Overman: P. Barkovich.
 Location of Mine: L.S. 13, Sec. 8, Tp. 20, Rge. 2, W. of the 5th Mer.
 Area: 240 acres. Character of Coal: Domestic.
 Thickness of Seam: 8 feet.

Du Rocherville Mining Company, Limited. (Mine No. 735.)

Mine Office: Nanton.
 Head Office: Nanton.
 Authorized Capital: \$600,000.00.
 President: Francis Du Rocher.
 Directors: Francis Du Rocher, T. H. Bartholomew, A. B. McRae.
 Secretary: T. H. Bartholomew.
 Treasurer: Francis Du Rocher.
 Overman: Francis Du Rocher.
 Location of Mine: Sec. 4, Tp. 15, Rge. 3, W. of the 5th Mer.
 Area: 230 acres. Character of Coal: Bituminous.
 The seam being worked has a thickness of from 2 to 8 ft., with hard sandstone roof and pavement, pitching 70 degrees in a south-westerly direction.
 The mine produces 20 tons of coal per day, which is disposed of locally.

David B. Blacklock. (Mine No. 736.)

Mine Office: Black Diamond.
 Overman: David B. Blacklock.
 Mine Surveyor: Gordon L. Kidd.
 Location of Mine: L.S. 8, Sec. 2, Tp. 20, Rge. 3, W. of the 5th Mer.
 Area: 200 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet, 6 inches.
 Thickness of Cover: 50 feet.

Edward Little. (Mine No. 858.)

Mine Office: Longview.
 Overman: Edward Little.
 Location of Mine: L.S. 1, Sec. 9, Tp. 18, Rge. 2, W. of the 5th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet.

W. M. Connacher. (Mine No. 916.)

Mine Office: Priddis.
 Head Office: 211 8th Avenue West, Calgary, Alberta.
 Overman: Laughlin MacMillan.
 Location of Mine: N.W. $\frac{1}{4}$ Sec. 20, Tp. 22, Rge. 3, W. of the 5th Mer.
 Area: 160 acres. Character of Coal: Domestic.
 Thickness of Seam: 2 feet.
 Thickness of Cover: 80 feet.

J. E. Chronister & Brown. (Mine No. 924.)

Mine Office: High River.
 Overman: James Edward Chronister.
 Location of Mine: L.S. 14, Sec. 8, Tp. 18, Rge. 2, W. of the 5th Mer.
 Area: 40 acres. Character of Coal: Domestic.

CANMORE DISTRICT.—DISTRICT NO. 11.

Canmore Coal Company, Limited. (Mine No. 2.)

Mine Office: Canmore.
 Head Office: Minersville, Pa.
 Authorized Capital: \$50,000.00.
 President: James B. Neale.
 Directors: James B. Neale, S. B. Thorne, J. G. Thorp, Dr. Hayes, B. F. Crane, A. Stewart.
 General Manager: M. B. Morrow.
 Manager: William Musgrove.
 Overman: W. G. Wilson, Stewart Seam.
 Overman: James Hill, Carey Seam.
 Examiners: Charles Fowers, D. Thompson, C. Briggs, A. Basso, R. Grant, James Reid, J. White, P. M. Ramsay, M. Warren, P. Hutchison.
 Mine Surveyor: J. B. Elliott.
 Master Mechanic: H. Evans.
 Location of Mine: Sec. 29, Tp. 24, Rge. 10, W. of the 4th Mer.
 Area: 7,000 acres. Character of Coal: Bituminous.
 There are two seams being worked at present at this mine, the Stewart having a thickness of from 5 to 10 feet, with sandstone roof and pavement, and the Carey

having a thickness of 7 feet, with sandstone roof and shale pavement, the strata pitching from 5 degrees to vertical.

The mine is entered by means of a slope 6 feet high by 16 feet wide, on an inclination of 12 degrees, driven in the coal from the outcrop.

The system of working is room and pillar, across the pitch.

In the Stewart seam jig-ways are driven to the rise, with rooms to right and left, cars being handled from the rooms by means of compressed air hoists located on the gangway.

The following improvements and additions have been made to the plant:

A fire-proof lamp house, 250 mine cars, two 150 H.P. steam boilers and one air compressor. Three rock tunnels have been driven from the Stewart to the Carey and Morris seams. A number of houses have been built for workmen and officials.

P. Burns Coal Mines Limited. (Mine No. 786.)

Mine Office: Calgary.

Head Office: Box 380, Calgary.

President: Pat Burns.

Vice-President: John Burns.

Secretary: Wilfred E. Corlett.

Manager: John Brown.

Overman: Dan Brisco.

Mine Surveyor: J. Brown.

Location of Mine: L.S. 3, Sec. 14, Tp. 19, Rge. 7, W. of the 5th Mer.

Area: 3,000 acres.

Character of Coal: Bituminous.

The work at this mine consists of driving a rock tunnel, cross-cutting various seams.

There being no railway connection, the mine is at present closed.

BANFF DISTRICT.—DISTRICT NO. 12.

Department of Natural Resources (Canadian Pacific Railway Company)

Bankhead Mines. (Mine No. 80.)

Mine Office: Bankhead.

Head Office: Montreal, Quebec.

President: E. W. Beatty.

Vice-President: Grant Hall.

Directors: A. B. Angus, E. W. Beatty, Hon. Frederick L. Beique, Sir John C. Eaton, Grant Hall, Sir Herbert S. Holt, C. R. Hosmer, Col. Frank S. Meighen, Sir Vincent Meredith, Sir Augustus M. Nanton, Sir Edmund B. Osler, J. K. L. Ross, Hon. Lord Shaughnessy, Hon. Wm. J. Shaughnessy, Sir Thomas Skinner.

Secretary: Ernest Alexander.

Treasurer: H. E. Suckling.

General Manager: P. L. Naismith.

General Superintendent: Lewis Stockett. Superintendent: D. G. Wilson.

Mine Manager: John Watters.

Overman: Thomas Bastian.

Mine Surveyor: E. Wright.

Examiners: J. Littler, R. Littler, A. P. Hastings, R. Oakes, J. A. Painter.

Master Mechanic: T. White.

Location of Mine: Sec. 19, Tp. 26, Rge. 11, W. of the 4th Mer.

Area: 10,900 acres.

Character of Coal: Anthracite.

Owner of Property: Canadian Pacific Railway, Dept. of Nat. Resources, Calgary, Alberta.

There are four seams being worked at this mine, the No. 1, No. 2, No. 5, and 04, each having sandstone roof and pavement, the dip of the strata being 50 degrees in a westerly direction.

The mine is located at Bankhead, near Banff, and is entered by a series of drifts driven in at different elevations. The coal from the different levels is lowered over surface inclines, from "C" to "B" level, being 2,900 feet long, and from "B" to "A" 2,200 feet. The "B" level hoist is electrically operated, and "C" level hoist is operated by compressed air. Considerable cross-cutting has been done at this mine between the several seams at the different levels.

Haulage on the different levels is done by compressed air locomotives.

The capacity of the plant is 800 tons of coal per day.

Safety lamps of the Wolf Flame type are in use throughout the mine.

Eldon Mining Company, Limited. (Mine No. 618.)
(Copper Ore Mine.)

Mine Office: Eldon.
Head Office: 205-8 Dominion Bank Bldg., Calgary.
Prospecting work only being done during the year.

DRUMHELLER DISTRICT.—DISTRICT NO. 13.

Joe Medloski. (Mine No. 299.)

Mine Office: Rosebud.
Overman: Joe Medloski.
Mine Surveyor: G. L. Kidd.
Location of Mine: S.W. $\frac{1}{4}$ Sec. 29, Tp. 26, Rge. 21, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Thickness of Seam: 3 feet 3 inches.
Thickness of Cover: 50 feet.

Newcastle Coal Company, Limited. (Mine No. 317.)

Mine Office: Drumheller.
Head Office: Drumheller.
Authorized Capital: \$250,000.00.
President: Jesse Gouge.
Vice-President: Wilson Gouge.
Secretary: G. M. Coyle.
Manager: D. A. Macaulay.
Overman: John Conlin.
Mine Surveyor: D. A. Macaulay.
Examiner: John Eno.
Location of Mine: S.E. $\frac{1}{4}$ Sec. 9, Tp. 29, Rge. 20, W. of the 4th Mer.
Area: 400 acres. Character of Coal: Domestic.
Owner of Property: Newcastle Coal Co., Ltd.

The No. 5 seam which is being worked at this mine has an average thickness of 4 ft., with shale roof and clay pavement, the strata is practically level, the cover varying from 30 ft. to 300 ft. in thickness.

The mine is located near Drumheller, and is entered by means of a short slope driven on an inclination of 20 degrees.

The room and pillar system of working has been adopted, coal being mined by electrically operated coal-cutting machines of the chain type.

The plant has a capacity of 850 tons per day, mine cars holding 2,000 lbs.

Open lights are used throughout the mine.

The following improvements have been made to the plant:

One return tubular boiler, one electrically operated coal-cutting machine of the Over-cutting type.

Rosedale Coal Company, Limited. (Mine No. 346.)

Mine Office: Rosedale.
Head Office: 43 Victoria St., Toronto, Ont.
Authorized Capital: \$1,500,000.00.
President: R. G. Thompson.
Vice-President: W. C. Robertson.
Secretary: H. S. Gausby.
Superintendent: W. A. Davidson.
Mine Manager: T. O'Donnell.
Mine Surveyor: T. O'Donnell.
Master Mechanic: A. Grant.
Location of Mine: L.S. 14, Sec. 28, Tp. 28, Rge. 19, W. of the 4th Mer.
Area: 14,000 acres. Character of Coal: Domestic.
Owner of Property: Rosedale Coal Company, Ltd.

The No. 1 seam which is being worked at this mine, has a thickness of 8 ft. 6 inches, with shaly sandstone roof and shaly pavement, the cover having a thickness of from 38 to 350 ft., the upper $4\frac{1}{2}$ ft. of the seam being the only portion worked.

The mine is located at Rosedale, and is entered by shafts.

The system of working is room and pillar, the coal being under-cut by means of electrically operated coal-cutting machines of the chain type.

Open lights are used throughout the mine.

The following additions and improvements have been made to the mine:

One steel tippie equipped with a Marcus screen, having a capacity of 1,000 tons in 8 hours, three locomotive type boilers 125 H.P. each, one high speed direct connected 160 K.W. D.C. generator and one high speed engine direct connected to a 65 K.W. D.C. generator.

The Rose Deer Coal Mining Company, Limited. (Mine No. 347.)

Mine Office: Wayne.
 Head Office: 229 Eighth Ave. West, Calgary, Alberta.
 Authorized Capital: \$1,000,000.00.
 President: Alex. Smith.
 Secretary-Treasurer: L. A. Tupper.
 Directors: G. V. Tupper, L. A. Tupper, W. S. Tupper.
 General Manager: Geo. V. Tupper.
 Manager: Peter Allen.
 Overman: D. Redpath.
 Examiner: Wm. Fyfe.
 Mine Surveyor: Peter Allen.
 Location of Mine: L.S. 13, Sec. 7, Tp. 28, Rge. 19, W. of the 4th Mer.
 Area: 6,000 acres. Character of Coal: Domestic.
 Owner of Property: Rose Deer Coal Mining Company, Ltd.

The No. 1 seam which is being worked at this mine, has a thickness of 7 ft., with shale roof and clay pavement, the cover having a thickness of 350 ft.

The mine is entered by means of a slope, up which the coal is hoisted to the tibble by means of a steam operated hoist.

The room and pillar system of working is adopted, mining being done in the clay by means of electrically operated coal-cutting machines of the Acrewall type, cutting the clay band in the centre of the seam.

Open lights are used throughout the mine.

The following improvements have been made to the plant:

Two water tube boilers, 205 H.P. each, equipped with chain grates and stokers, one high speed direct engine connected to a 275 K.W. A.C. 3 phase, 60 cycle, 2,300 volts generator. The current for use in the mine is transformed through step down transformer to 220 volts.

Callie Coal Company, Limited. (Mine No. 349.)

Mine Office: Drumheller.
 Authorized Capital: \$150,000.00.
 President: A. N. Walker.
 Vice-President: A. R. Coleman.
 Secretary-Treasurer: W. F. Skinner.
 Directors: A. N. Walker, A. R. Coleman, W. F. Skinner, A. G. Thompson, Francis Aspinall.
 General Manager: A. N. Walker.
 Manager: Harry Crowder.
 Overman: W. A. Briggs.
 Examiner: W. Marsh.
 Location of Mine: L.S. 14, Sec. 2, Tp. 29, Rge. 20, W. of the 4th Mer.
 Area: 596 acres. Character of Coal: Domestic.

The No. 1 seam which is being worked at this mine, has a thickness of 8 ft., the upper 4½ feet only being worked; the lower portion consists of clay and bone coal. The roof is shale, with clay pavement, the cover being from 80 to 250 feet in thickness.

The mine is located at Drumheller, and is entered by a slope 240 ft. long, on an inclination of 19 degrees.

The room and pillar system of working is adopted, coal being mined by electrically operated coal-cutting machines of the Acrewall type.

The plant has a capacity of 500 tons per day, the mine cars holding 2,000 lbs.

Safety lamps of the Wolf Flame type are used by the miners and officials, the haulage crew being supplied with cap lamps of the Edison electric type.

Midland Collieries, Limited. (Mine No. 367.)

Mine Office: Drumheller.
 Authorized Capital: \$300,000.00.
 President: T. G. McMullen.
 Directors: T. G. McMullen, S. L. McMullen, J. R. McMullen, C. B. McMullen.
 Secretary-Treasurer: James McMurray.
 General Manager: S. L. McMullen.
 Manager: Francis Aspinall.
 Overman: James Darbyshire.
 Examiners: A. Wilson, G. Clarke.
 Mine Surveyor: Francis Aspinall.
 Location of Mine: N.E. ¼ Sec. 9, Tp. 29, Rge. 28, W. of the 4th Mer.
 Area: 1,240 acres. Character of Coal: Domestic.
 Owner of Property: Midland Collieries, Ltd.

The No. 1 seam which is being worked at this mine has a thickness of 6 feet, with shaly sandstone roof, and clay pavement, the cover being 250 feet in thickness.

The mine is entered by a slope 380 feet long, on an inclination of 19 degrees.

The system of working is room and pillar, coal being undercut by compressed air operated coal-cutting machines of the Radial Post type.

Safety lamps of the Wolf Flame type are in use throughout the mine.

North American Collieries, Limited. (Mine No. 402.)

Mine Office: Nacmine.

Head Office: 904 Lancaster Building, Calgary.

Authorized Capital: \$1,000,000.00.

President: H. A. Lovett, K.C.

Vice-President: Hugh Mackay, K.C.

Directors: N. Curry, H. A. Lovett, K.C., P. W. Herrick, R. M. Ballantyne,

J. W. Pyke, T. M. Mackie.

Secretary-Treasurer: W. W. Berridge.

General Manager: W. J. Dick.

Manager: Joseph B. De Hart.

Overman: A. Crawford.

Examiners: Ed. Richards, R. Muir, R. Graham, T. Coxon, J. Cotterill,

T. Campbell, B. Nugent.

Location of Mine: On road allowance on East side of Sec. 7, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 3,500 acres.

Character of Coal: Domestic.

Owner of Property: North American Collieries, Limited.

The No. 1 seam which is being worked at this mine has a thickness of 5 ft. 6 in. with shaly sandstone roof and clay pavement, the cover being from 200 to 400 ft. in thickness.

The mine is entered by shafts 200 ft. deep.

The system of working is room and pillar, the coal being under-cut by means of compressed air machines of the Puncher type.

Safety lamps are used throughout the mine by miners and officials, cap lamps of the Edison Electric type being used by the haulage employees.

Great West Coal Company, Limited. (Mine No. 436.)

Mine Office: Aerial.

Head Office: Brandon, Man.

Authorized Capital: \$50,000.00.

President: J. R. Brodie.

Vice-President: G. G. Gibson

Directors: J. R. Brodie, G. G. Gibson, Mabel Brodie.

Secretary-Treasurer: G. G. Gibson.

Manager: J. D. Thomas.

Overman: D. Picton.

Examiner: J. Molyneux.

Mine Surveyor: J. D. Thomas.

Location of Mine: L.S. 7, Sec. 28, Tp. 28, Rge. 19, W. of the 4th Mer.

Area: 240 acres.

Character of Coal: Domestic.

Owner of Property: Great West Coal Company, Limited.

The No. 1 seam which is being worked has a thickness of 6 ft., with shaly sandstone roof, and clay pavement, the coal outcropping on the banks of the Red Deer river 30 ft. above the water; the cover above the seam has a thickness of 20 to 320 ft.

The mine is entered by means of drifts driven in from the outcropping on the east bank of the river. The tippie is located on the west bank of the river, to which the loaded mine cars, after being lifted off the trucks, are taken by means of an aerial tramway.

The room and pillar system of working is adopted. No coal-cutting machines have been installed.

Open lights are in use throughout the mine.

Premier Coal Company, Limited. (Mine No. 439.)

Mine Office: Drumheller.

Authorized Capital: \$50,000.00.

President: A. H. Gibson.

Secretary-Treasurer: G. N. Strong.

General Manager: J. K. Miller.

Overman: E. Reid.

Examiner: S. Henderson.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 3, Sec. 10, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 160 acres.

Character of Coal: Domestic

The No. 5 seam which is being worked at this mine, has a thickness of 4 ft. 6 inches, with sandstone roof and clay pavement, the cover being from 30 to 100 ft. thick.

The mine is entered by means of a slope 65 ft. long on an inclination of 15 degrees.

The system of working is room and pillar, coal being undercut by electrically operated coal-cutting machines of the Chain type.

The plant has a capacity of 200 tons per day, mine cars holding 2,000 lbs.

Open lights are used throughout the mine.

Burton Thomas Brooks. (Mine No. 464.)

Mine Office: Drumheller.

Overman: B. T. Brooks.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 4, Sec. 23, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 100 acres.

Character of Coal: Domestic.

The No. 7 seam which is being worked at this mine has the following section: Top coal 18 inches, bone 18 inches, bottom coal 32 inches with clay roof and pavement, the cover being from 45 to 200 ft. in thickness.

The mine is located in Fox Coulee, $3\frac{1}{2}$ miles north-east of Drumheller, and is entered by drifts.

The system of working is room and pillar.

The output is disposed of to the settlers in the vicinity, there being no railway connection.

Open lights are in use throughout the mine.

Alberta Block Coal Company, Limited. (Mine No. 620.)

Mine Office: Drumheller.

Authorized Capital: \$200,000.00.

President: G. N. Coyle.

Vice-President: Wilson Gouge.

Secretary: Jesse Gouge.

Mine Manager: D. A. Macaulay.

Overman: T. E. Moore.

Examiners: C. Chapman, A. J. Briggs.

Mine Surveyor: D. A. Macaulay.

Master Mechanic: J. A. Drummond.

Location of Mine: N.W. $\frac{1}{4}$ Sec. 3, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 300 acres.

Character of Coal: Domestic.

Owner of Property: Alberta Block Coal Company, Limited.

The No. 5 seam being worked at this mine has a thickness of 4 feet 8 inches, with sandstone roof and fireclay pavement, the cover being from 35 to 300 ft. in thickness.

The mine is entered by means of shafts.

Room and pillar system of working is adopted, the coal being undercut by electrically operated coal-cutting machines of the chain type.

Telephone service has been installed in the different districts of the mine connecting with the office and the surface.

The plant has a capacity of 800 tons per day, the mine cars holding 2,000 lbs.

The plant consists of three return tubular boilers, 150 H.P. each, two electric generators of 150 H.P. and 300 K.W.

Electric power is supplied from the power house at this mine to the Newcastle and Newcastle Junior Mines.

Open lights are used throughout the mine.

Western Commercial Company, Limited. (Mine No. 640.)

Mine Office: Wayne.

Authorized Capital: \$1,500,000.00.

President: Vital Raby.

Secretary-Treasurer: P. Laurendeau.

Directors: T. H. Lancaster, W. Law, D. J. Lucy, R. Bessa, Jos. Raby.

Manager: H. R. Brown.

Overman: D. Roberts.

Examiners: A. Wilson, P. Hetherington.

Mine Surveyor: H. R. Brown.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 7, Tp. 28, Rge. 19, W. of the 4th Mer.

Area: 3,000 acres.

Character of Coal: Domestic.

Owner of Property: Western Commercial Company, Limited.

The No. 1 seam which is being worked has the following section: Cap rock 3 inches, bone 10 inches, coal 32 inches, bone 5 inches, coal 6 inches, clay 6 inches, coal

6 inches, bone 8 inches, coal 24 inches, with shale roof and clay pavement, the cover being 250 ft. thick.

The mine is located at Wayne, and is entered by a slope 91 ft. long, on an inclination of 15 degrees.

The system of working is room and pillar, the coal being under-cut by compressed air operated coal-cutting machines of the Radial Post type.

The plant has a capacity of 800 tons per day, the mine cars holding 2,400 lbs.

Open lights are used throughout the mine.

Jewell Collieries Limited. (Mine No. 643.)

Authorized Capital: \$250,000.00.

Mine Office: Wayne.

Head Office: 227 8th Ave. West, Calgary.

President: W. S. Henderson.

Directors: W. S. Henderson, W. S. Taylor.

Secretary-Treasurer: Pat H. Purcell.

Mine Manager: A. Higgins.

Mine Surveyor: A. Higgins.

Fire Boss: G. Cowan.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 7, Tp. 28, Rge. 19, W. of the 4th Mer.

Area: 485 acres.

Character of Coal: Domestic.

Owner of Property: Jewell Collieries, Ltd.

The No. 1 seam which is being worked has a thickness of 6 ft., with shale roof and clay pavement, the cover being from 30 to 300 ft. thick.

The mine is entered by means of a slope and shaft, the latter being used for hoisting coal, the slope being used for travelling way; the shaft is equipped with self dumping cages.

Room and pillar system of working is adopted, coal being undercut by electrically operated coal-cutting machines of the Chain type.

A new tippie equipped with jig screens, having a capacity of 500 tons per day, has been installed, also an 80 H.P. electrically operated hoist.

Open lights are used throughout the mine.

J. N. Murray. (Mine No. 675.)

Mine Office: Rosedale.

Head Office: Drumheller.

Overman: Corey Weatherbee.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 12, Sec. 28, Tp. 27, Rge. 18, W. of the 4th Mer.

Area: 300 acres.

Character of Coal: Domestic.

The No. 1 seam which is being operated has a thickness of 7 ft., with sandstone roof and pavement, the cover being 200 ft. in thickness.

Western Gem Coal Company, Limited. (Mine No. 678.)

Mine Office: Drumheller.

Authorized Capital: \$750,000.00.

President: W. S. Henderson.

Manager: Francis Aspinall.

Overman: J. Scarpino.

Examiner: H. Smith.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 13, Sec. 10, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 320 acres.

Character of Coal: Domestic.

Owner of Property: Western Gem Coal Company, Limited.

The No. 5 seam which is being worked has a thickness of 4 ft. 6 inches, with sandstone roof and clay pavement, the cover being from 50 to 300 ft. in thickness.

The mine is located 2 miles west of Drumheller, and is entered by shafts which have been sunk to a depth of 109 ft. to the No. 1 seam.

System of working adopted is room and pillar, coal being undercut by electrically operated coal-cutting machines of the chain type.

Open lights are in use throughout the mine.

No work is being carried on in the No. 1 seam.

Atlas Coal Company, Limited. (Mine No. 684.)

Mine Office: Drumheller.

Authorized Capital: \$50,000.00.

President: James Holden.

Vice-President: Omar H. Patrick.

Secretary-Treasurer: James McCulloch.

Manager: James Holden.

Overman: James McCulloch.

Examiner: A. Poole.

Mine Surveyor: G. L. Kidd.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 10, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 120 acres.

Character of Coal: Domestic.

Owner of Property: Drumheller Land Company, Ltd.

The No. 5 seam which is being worked has a thickness of 5 ft., with sandstone roof and clay pavement, the cover being 20 ft. in thickness.

The mine is entered by means of a slope driven on an inclination of 15 degrees.

The system of working is room and pillar, the coal being mined by coal-cutting machines of the chain type, one operated by a compressed air Turbo type motor, and the other of the Arcwall type, electrically operated.

The plant has a capacity of 450 tons per day, the mine cars holding 2,000 lbs.

Open lights are used throughout the mine.

Scranton Coal Company, Limited. (Mine No. 695.)

Mine Office: Drumheller.

Authorized Capital: \$50,000.00.

President: B. K. Bullock.

Secretary: F. Watkins.

General Manager: B. K. Bullock.

Overman: William Watson.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 5 Sec. 10, Tp. 29, Rge. 20, W. of the 4th Mer.

Area: 240 acres.

Character of Coal: Domestic.

Owner of Property: Scranton Coal Co. Ltd.

The upper 5½ feet of the No. 1 seam which is being worked at this mine, has a shaly sandstone roof with bone pavement, the cover being 100 feet thick.

The mine is entered by means of shafts, up which the coal is hoisted on self-dumping cages, the coal being prepared over shaker screens.

The system of working is room and pillar, the coal being mined by electrically operated coal-cutting machines of the Arcwall overhead type.

Open lights are used throughout the mine.

Celtic Coal Company, Limited. (Mine No. 697.)

(Formerly operated by the Hamilton Coal Company.)

Mine Office: Wayne.

Authorized Capital: \$150,000.00.

President: Peter Allen.

Vice-President: H. Grover.

Secretary: D. Roberts.

Treasurer: W. C. Allen.

Overman: W. C. Allen.

Mine Surveyor: G. L. Kidd.

Location of Mine: L.S. 7, Sec. 18, Tp. 28, Rge. 19, W. of the 4th Mer.

Area: 520 acres.

Character of Coal: Domestic.

This mine was formerly operated in the No. 1 seam, the present working being in the No. 2 seam which has a thickness of 3 ft. 2 inches, with shale roof and clay pavement, the cover having a thickness of 250 ft.

The mine is entered by a slope 100 ft. long, on an inclination of 15 degrees.

The double stall and the shortwall system of working is adopted. Rooms are driven 90 ft. wide, the coal being undercut by electrically operated coal-cutting machines of the longwall chain type.

The plant has a capacity of 250 tons per day, the mine cars holding 1,500 lbs.

Open lights are used throughout the mine.

Thickness of Cover: 50 to 250 ft.

Robert Taylor. (Mine No. 931.)

Mine Office: Rosedale.

Overman: Robert Taylor.

Location of Mine: Sec. 20, Tp. 27, Rge. 18, W. of the 4th Mer.

Area: 40 acres.

Character of Coal: Domestic.

The No. 1 seam which is being worked at this mine, has a thickness of 6½ feet, with sandstone roof and pavement, the cover varying from 50 to 250 feet.

This mine is located in East Coulee, about 8 miles south-east of Rosedale, and is entered by drifts driven in the outcrop from the bank of the river.

Note.—The numbering of the coal seams in the Drumbheller Field has been changed, so that they now agree with the numbers given in "The Third Annual Report on the Mineral Resources of Alberta," by Dr. John A. Allan.

BIG VALLEY DISTRICT.—DISTRICT NO. 14.

Big Valley Collieries, Limited. (Mine No. 364.)

Mine Office: Big Valley.

Authorized Capital: \$50,000.00.

President: John Gillespie.

Vice-President: A. Albertson.

General Manager: A. Albertson.

Secretary-Treasurer: F. T. Aitken.

Manager: John Robertson.

Examiners: R. Baxter, I. Kehl.

Mine Surveyor: Norman Fraser.

Location of Mine: N.W. ¼, Sec. 1, Tp. 36, Rge. 20, W. of the 4th Mer.

Area: 1,300 acres.

Character of Coal: Domestic.

The seam which is being worked has a thickness of 6 feet, with shale roof and pavement, the cover having a thickness of from 20 to 125 feet.

The mine is located 1½ miles north of Big Valley, and is entered by means of a slope 35 feet long, on an inclination of 15 degrees.

The room and pillar system of working is adopted, the coal being undercut by electrically operated coal-cutting machines of the Chain type.

Open lights are used throughout the mine.

The plant has a capacity of 500 tons of coal per day, mine cars holding 2,400 lbs.

The following improvements have been made:—

A new power house having a 72-K.W. three phase A.C. generator, belt driven from a high speed Corliss type steam engine, electrically operated coal-cutting machines of the chain type, and a new tippie with shaker screens.

NO. 2 MINE.

Overman: L. Turner.

Examiners: David Beck, R. Jones, P. Armstrong.

NO. 3 MINE.

Overman: John Crawford.

Examiners: George Campbell, George McQueen, George C. Yard.

NEW MINE.

Overman: A. McQueen.

Examiners: E. Hawkins, H. France, W. Dryborough.

There are two seams being worked at this mine: No. 2 having a thickness of 7 feet, with sandstone roof and shale pavement, and No. 3 having a thickness of 14 feet, with shale roof and pavement. The strata have a dip of 12 degrees in a south-westerly direction, the average cover over No. 3 seam being 200 feet, and over No. 2 seam 400 feet.

These mines are located at Nordegg, at the end of the steel on the C.N.R.-Brazeau Branch, and are entered by drifts 7 feet high by 12 feet wide driven in the coal from the outcrop on a flat 150 feet above and about a half a mile from the railway.

The tippie, which is equipped with rotary dumps, is located on the flat above the railway, the coal being taken to the loading terminal by means of a rubber belt conveyor 600 feet long, which discharges on to a Marcus screen.

The system of haulage from the mouth of the tunnel to the tippie is by electric locomotives of the trolley type, and on the entries by electric storage battery locomotives, horse-haulage being used for gathering purposes.

The plant has a capacity of 2,000 tons per day, the mine cars holding 2,500 lbs.

Cap lamps of the Edison electric type are used throughout the mine by the workmen, officials using Wolf Flame type safety lamps.

The following additions and improvements have been made to the plant:

One 500-K.W. electric generator operated by a steam turbine, one 60-K.W. electric generator, belt connected to a high speed engine, three electric storage battery locomotives, a new stable with accommodation for 80 horses, 41 cottages, and an addition to the washhouse with accommodation for 200 lockers.

Saunders Creek Collieries, Limited. (Mine No. 388.)

Mine Office: Saunders, Alberta.

Head Office: Saunders, Alberta.

Authorized Capital: \$300,000.00.

President: Jules Charbonnier.

Vice-President: Raoul Green.

Secretary-Treasurer: George Grassowski.

Manager: Thomas Horne.

Overman: W. G. Pearson.

Mine Surveyor: A. E. Williams.

Examiner: H. Morley.

Location of Mine: N.E. $\frac{1}{4}$, Sec. 24, Tp. 40, Rge. 13, W. of the 5th Mer.

Area: 2,561 acres.

Character of Coal: Bituminous.

Saunders-Alberta Collieries, Limited. (Mine No. 756.)

Mine Office: West Saunders.

Head Office: Red Deer.

Authorized Capital: \$500,000.00

President: C. F. Dorsey.

Secretary-Treasurer: A. H. Moyes.

Directors: C. F. Dorsey, A. Collison, E. W. Delong.

Manager and Overman: John Stevenson.

Examiner: J. R. Tisdale.

Mine Surveyor: D. R. Moore.

Master Mechanic: Harvey Cleveland.

Location of Mine: L.S. 16, Sec. 23, Tp. 40, Rge. 13, W. of the 5th Mer.

Area: 600 acres.

Character of Coal: Bituminous.

Harlech Coal Company. (Mine No. 823.)

Mine Office: Nordegg, Alberta.

Secretary-Treasurer: Stewart Kidd.

Overman: W. R. Kerr.

Mine Surveyor: H. D. Moore.

Owner of Property: J. Kalin.

Ole Thompson. (Mine No. 495.)

Mine Office: Lousana.
Overman: Ole Thompson.
Mine Surveyor: Norman Fraser.
Location of Mine: N.E. 4, Sec. 12, Tp. 36, Rge. 22, W. of the 4th Mer.
Area: 20 acres. Character of Coal: Domestic.
Thickness of Seam: 4 feet.
Thickness of Cover: 80 feet.
Owner of Property: Ole Thompson.

James Aiello. (Mine No. 631.)

Mine Office: Ardley.
Overman: Tom Crew.
Location of Mine: S.W. 4, Sec. 17, Tp. 38, Rge. 23, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Thickness of Seam: 5 feet, 6 inches.
Thickness of Cover: 100 feet.

Theodore Kurp. (Mine No. 635.)—(Stripping Pit.)

Mine Office: Delburne.
Overman: Theodore Kurp.
Location of Mine: L.S. 4, Sec. 7, Tp. 38, Rge. 23, W. of the 4th Mer.
Area: 30 acres. Character of Coal: Domestic.
Thickness of Seam: 5 feet.
Thickness of Cover: 10 feet.
Owner of Property: Theodore Kurp.

Peters & Kinchin. (Mine No. 710.)

Mine Office: Trochu.
Overman: Robert Davidson.
Mine Surveyor: Robert Hamilton.
Location of Mine: L.S. 10, Sec. 14, Tp. 33, Rge. 23, W. of the 4th Mer.
Area: 20 acres. Character of Coal: Domestic.
Thickness of Seam: 5 feet, 6 inches.
Thickness of Cover: 70 feet.
Owner of Property: Wm. Peters.

North Star Coal Company. (Mine No. 731.)—(Stripping Pit.)

Mine Office: Alix.
Manager: W. C. H. Louis.
Mine Surveyor: C. C. Richards.
Location of Mine: L.S. 16, Sec. 33, Tp. 38, Rge. 23, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Thickness of Seam: 8 feet.
Thickness of Cover: 20 feet.
Owner of Property: Casper W. Sharples.

Ardley Hardite Collieries, Limited. (Mine No. 787.)

Mine Office: Ardley.

Head Office: 1011 Herald Bldg., Calgary.

Authorized Capital: \$300,000.00.

President: W. R. Walsh.

Vice-President: Geo. A. MacKenzie.

Secretary-Treasurer: D. Preston.

Directors: W. H. McLaws, Geo. A. MacKenzie, D. Preston.

Superintendent: W. R. Walsh.

Overman: John Russell.

Mine Surveyor: R. H. Watson.

Location of Mine: L.S. 12, Sec. 21, Tp. 38, Rge. 23, W. of the 4th Mer.

Area: 12,000 acres.

Character of Coal: Domestic.

Owner of Property: Ardley Hardite Collieries, Ltd.

The seam being worked at this mine has a thickness of 6 feet, with coal roof and shale pavement, and has a dip of two degrees in a south-easterly direction, the cover being 95 feet in thickness.

The mine is located near Ardley, on the Edmonton-Calgary branch of the G.T.P., and is entered by a shaft equipped with self-dumping cages.

System of working is room and pillar. The capacity of the plant is 300 tons per day, mine-cars holding 2,000 lbs.

Open lights are in use throughout the mine.

Harry T. Cooper. (Mine No. 799.)

Mine Office: Lousana.

Overman: Harry T. Cooper.

Location of Mine: Sec. 24, Tp. 36, Rge. 22, W. of the 4th Mer.

Area: 20 acres.

Character of Coal: Domestic

Owner of Property: Harry T. Cooper.

Thickness of Seam: 4 feet.

Thickness of Cover: 20 to 250 feet.

Jones, Waltham & Sissions. (Mine No. 809.)

Mine Office: Alix.

Overman: Thomas N. Waltham.

Location of Mine: L.S. 6, Sec. 33, Tp. 38, Rge. 23, W. of the 4th Mer.

Area: 160 acres.

Character of Coal: Domestic.

Owner of Property: Wm. Jones, Alix.

Thickness of Seam: 5 feet.

Thickness of Cover: 70 feet.

Thomas E. Lassiter. (Mine No. 812.)

Mine Office: Delburne.

Overman: Thomas E. Lassiter.

Location of Mine: L.S. 15, Sec. 2, Tp. 38, Rge. 24, W. of the 4th Mer.

Area: 20 acres.

Character of Coal: Domestic.

Thickness of Seam: 6 feet.

Thickness of Cover: 6 to 20 feet.

Owner of Property: E. Parlbly.

Ardley Hardite Collieries Limited. (Mine No. 824.)

(Formerly Sunbeam Collieries, Limited.)

Mine Office: Ardley.

Head Office: 1011 Herald Bldg., Calgary, Alberta.

Authorized Capital: \$300,000.00.

President: W. R. Walsh.

Vice-President: Geo. A. MacKenzie.

Secretary-Treasurer: D. Preston.

Directors: W. H. McLaws, Geo. A. MacKenzie, D. Preston.

Superintendent: W. R. Walsh.

Overman: Charles Chesnut.

Mine Surveyor: R. H. Watson.

Location of Mine: E. $\frac{1}{4}$ Sec. 20, Tp. 38, Rge. 23, W. of the 4th Mer.

Area: 320 acres.

Character of Coal: Domestic.

Owner of Property: Col Walker, Calgary

The seam has a thickness of 6 feet; the roof above the coal is clay 1 foot in thickness, overlaid by sandstone, with clay pavement, the thickness of cover being 90 feet

The mine is entered by means of a level driven in the coal from the outcrop in a Coulee

The system of working is room and pillar, the coal being undercut by means of compressed air coal-cutting machines of the Post Radial type
Open lights are used throughout the mine

Wm. Schamehorm. (Mine No. 831.)

Mine Office: Alix.
Overman: A. G. Fudge.
Mine Surveyor: Norman Fraser.
Location of Mine: L.S. 15, Sec. 33, Tp. 30, Rge. 23, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Owner of Property: Rosebank Coal Co. Ltd., Alix.
Thickness of Seam: 5 feet 6 inches.
Thickness of Cover: 80 feet.

David Halbert. (Mine No. 859.)

Mine Office: Trochu.
Overman: David Halbert.
Mine Surveyor: Robert Hamilton.
Location of Mine: Sec. 23, Tp. 33, Rge. 23, W. of the 4th Mer.
Area: 20 acres. Character of Coal: Domestic.
Owner of Property: David Halbert.
Thickness of Seam: 5 feet 6 inches.
Thickness of Cover: 70 feet.

Robert Russell. (Mine No. 891.)

Mine Office: Alix.
Overman: Robert Russell.
Location of Mine: L.S. 11, Sec. 1, Tp. 38, Rge. 24, W. of the 4th Mer.
Area: 80 acres. Character of Coal: Domestic.
Owner of Property: Robert Russell.
Thickness of Seam: 5 feet.
Thickness of Cover: 15 feet.

C. H. Stanley. (Mine No. 912.)

Mine Office: Ardley.
Manager: Corey Weatherbee.
Location of Mine: E. $\frac{1}{2}$ Sec. 29, Tp. 38, Rge. 23, W. of the 4th Mer.
Area: 80 acres. Character of Coal: Domestic.
Owner of Property: C. H. Stanley.
Thickness of Seam: 6 feet.
Thickness of Cover: 90 feet.
This mine is at present closed.

Thomas McKinlay. (Mine No. 921.)

Mine Office: Trochu.
Overman: Thomas McKinlay.
Location of Mine: L.S. 16, Sec. 14, Tp. 33, Rge. 23, W. of the 4th Mer.
Area: 20 acres. Character of Coal: Domestic.
Owner of Property: Thomas McKinlay.
Thickness of Seam: 5 feet 6 inches.
Thickness of Cover: 70 feet.

George Paton. (Mine No. 949.)

Mine Office: Delburne.
Overman: George Paton.
Location of Mine: S.E. $\frac{1}{4}$, Sec. 27, Tp. 37, Rge. 23, W. of the 4th Mer.
Area: 40 acres. Character of Coal: Domestic.
Owner of Property: Geo. Paton.
Thickness of Seam: 5 feet.
Thickness of Cover: 20 to 100 feet.

Dennis Blair. (Mine No. 957.)

Mine Office: Delburne.
Overman: Dennis Blair.
Location of Mine: S.E. $\frac{1}{4}$ Sec. 11, Tp. 38, Rge. 24, W. of the 4th Mer.
Area: 40 acres. Character of Coal: Domestic.
Thickness of Seam: 6 feet.
Thickness of Cover: 10 to 50 feet.

L. Bobier. (Mine No. 954.)

Mine Office: Lousana.
 Overman: Arthur Stievenard.
 Location of Mine: L.S. 9, Sec. 26, Tp. 36, Rge. 22, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet.
 Thickness of Cover: 300 feet.

William Bolze. (Mine No. 962.)

Mine Office: Delburne.
 Overman: Andrew Duda.
 Location of Mine: Sec. 2, Tp. 38, Rge. 24, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet.
 Thickness of Cover: 40 feet.

B. C. Kurp. (Mine No. 967.)

Mine Office: Delburne.
 Overman: B. C. Kurp.
 Location of Mine: Sec. 11, Tp. 38, Rge. 24, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.

THREE HILLS DISTRICT.—DISTRICT NO. 20.

Albert Trentham. (Mine No. 113.)

Mine Office: Three Hills.
 Overman: Albert Trentham.
 Mine Surveyor: Robert Hamilton.
 Location of Mine: L.S. 16, Sec. 26, Tp. 31, Rge. 24, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 70 feet.

Ellis Coal Company, Limited. (Mine No. 384.)

Mine Office: Three Hills.
 Head Office: Three Hills.
 Authorized Capital: \$20,000.00.
 President: Wm. Ellis, Sr.
 Vice-President: A. McCulloch.
 Secretary-Treasurer: Wm. Ellis, Jr.
 Manager: R. Hamilton.
 Mine Surveyor: R. Hamilton.
 Location of Mine: S.W. $\frac{1}{4}$ Sec. 36, Tp. 21, Rge. 24, W. of the 4th Mer.
 Area: 280 acres. Character of Coal: Domestic.
 Owner of Property: Union Coal Company, Ltd., Montreal.
 The seam being worked at this mine has a thickness of $5\frac{1}{2}$ feet, with sandstone roof and hard fire-clay pavement, cover being 162 feet in thickness.
 The mine is located at Three Hills, and is entered by means of shafts.
 System of working is room and pillar, coal being undercut by means of compressed air operated coal-cutting machines of the Radial Post type.
 Open lights are in use throughout the mine.

John Lebisto. (Mine No. 444.)

Mine Office: Twining.
 Overman: John Lebisto.
 Mine Surveyor: Norman Fraser.
 Location of Mine: L.S. 11, Sec. 14, Tp. 31, Rge. 24, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet, 3 inches.
 Thickness of Cover: 61 feet.

Knee Hill Valley Coal Company, Limited. (Mine No. 445.)

Mine Office: Twining.
 Authorized Capital: \$10,000.00.
 President: J. C. Spencer.
 Vice-President: John Lebisto.
 Secretary-Treasurer: D. Chambers.
 Overman: John Lebisto.
 Mine Surveyor: R. Hamilton.
 Location of Mine: L.S. 6, Sec. 14, Tp. 31, Rge. 24, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet 4 inches.
 Thickness of Cover: 56 feet.
 Owner of Property: Knee Hill Valley Coal Company.

William T. Trentham. (Mine No. 637.)

Mine Office: Three Hills.
 Overman: Wm. Trentham.
 Mine Surveyor: R. Hamilton.
 Location of Mine: N.E. $\frac{1}{4}$ Sec. 22, Tp. 31, Rge. 24, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 3 feet, 6 inches.
 Thickness of Cover: 40 feet.

The Palisade Coal Company, Limited. (Mine No. 811.)

Mine Office: Three Hills.
 Authorized Capital: \$60,000.00.
 President: Sam McVicar.
 Vice-President: G. A. Johnston.
 Secretary-Treasurer: J. W. Townshend.
 Manager: S. McVicar.
 Mine Surveyor: R. Hamilton.
 Area: 320 acres. Character of Coal: Domestic.
 Location of Mine: W. $\frac{1}{4}$ Sec. 36, Tp. 31, Rge. 24, W. of the 4th Mer.
 Owner of Property: The Palisade Coal Company, Limited.

The seam being worked at this mine has a thickness of 5½ feet, with sandstone roof and clay pavement, cover having a thickness of 162 feet.

The mine is entered by means of a slope 384 feet long, on an inclination of 34 degrees.

The system of working is room and pillar, coal being undercut by compressed air operated machines of the Puncher type.

Open lights are used throughout the mine.

CARBON DISTRICT.—DISTRICT NO. 21.

Knee Hill Coal Co., Ltd. (Mine No. 53.)

Mine Office: Carbon.
 Overman: Chris Johnson.
 Mine Surveyor: Norman Fraser.
 Location of Mine: S.W. $\frac{1}{4}$ Sec. 14, Tp. 29, Rge. 23, W. of the 4th Mer.
 Area: 320 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet.

 Thickness of Cover: 27 feet.
 (Mine just opening up.)

CAMROSE DISTRICT.—DISTRICT NO. 23.

E. E. Chappell. (Mine No. 215.)

Mine Office: Dodds.
 Mine Surveyor: Norman Fraser.
 Location of Mine: L.S. 6, 7, 8, Sec. 14, Tp. 49, Rge. 18, W. of the 4th Mer.
 Area: 120 Acres.
 Thickness of Seam: 6 feet.
 Thickness of Cover: 12 feet.
 This mine is worked as a stripping pit.

The Spicer Coal Company, Limited. (Mine No. 241.)

Mine Office: Dinant.
 Head Office: Saskatoon.
 Manager: John A. McLenhan.
 Mine Surveyor: J. A. McLenhan.
 Location of Mine: S.W. $\frac{1}{4}$ Sec. 18, Tp. 48, Rge. 19, W. of the 4th Mer.
 Area: 160 acres. Character of Coal: Domestic.
 The seam being worked has a thickness of 6 feet, with shale roof and clay pavement the cover being 30 feet in thickness.
 The mine is connected by a spur to the Edmonton-Calgary Branch of the Grand Trunk Pacific Railway.
 The mine is entered by a slope, and is worked on the room and pillar system.
 Open lights are used throughout the mine.

Stoney Creek Collieries, Limited. (Mine No. 244.)

Mine Office: Camrose.
 President: F. Adams.
 Directors: F. L. Farley, E. L. Scotwold, D. Twomey.
 Managing Director: D. Twomey.
 Overman: D. S. Williamson.
 Mine Surveyor: Norman Fraser.
 Location of Mine: S.E. $\frac{1}{4}$ Sec. 33, Tp. 46, Rge. 20, W. of the 4th Mer.
 Area: 200 acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet 6 inches.
 Thickness of Cover: 82 feet.
 The plant has a capacity of 50 tons per day.
 The improvements since 1916 consists of a new airshaft.

Round Hill Collieries, Limited. (Mine No. 250.)

Mine Office: Round Hill.
 Secretary-Treasurer: J. Twomey.
 Mine Surveyor: Norman Fraser.
 Location of Mine: S.E. $\frac{1}{4}$ Sec. 30, Tp. 48, Rge. 18, W. of the 4th Mer.
 Area: 80 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 18 feet.
 Stripping pit.

Canadian Dinant Coal Company, Limited. (Mine No. 374.)

Mine Office: Dinant.
 Head Office: Dinant.
 President: J. S. McGuire.
 Secretary-Treasurer: J. M. Halbert.
 Managing Director: M. Cranston.
 Manager: M. Cranston.
 Overman: M. Cranston.
 Mine Surveyor: Norman Fraser.

Location of Mine: N.E. $\frac{1}{4}$, Sec. 12, Tp. 48, Rge. 20, W. of the 4th Mer.

Area: 130 acres.

Owner of Property: Canadian Dinant Coal Company, Limited.

Thickness of Seam: 6 feet.

This mine is connected to the Edmonton-Calgary Branch of the Grand Trunk Pacific railway by means of a spur one mile in length.

The mine is entered by means of a slope driven on an inclination of 33 degrees, up which the mine cars are hoisted to the tibble by a steam-driven hoist.

The tibble is equipped with shaker screen, and has a capacity of 250 tons per day.

Open lights are used throughout the mine, which is worked on the room and pillar system.

H. Burnstadt. (Mine No. 724.)

Mine Office: Round Hill.

Location of Mine: S.W. $\frac{1}{4}$, Sec. 14, Tp. 48, Rge. 18, W. of the 4th Mer.

Area: 40 acres.

Character of Coal: Domestic.

Thickness of Seam: 6 feet.

Thickness of Cover: 10 feet.

Stripping pit.

M. T. Goss. (Mine No. 760.)

Mine Office: Round Hill.

Overman: Fred Holowatiuk.

Location of Mine: L.S. 3, Sec. 30, Tp. 48, Rge. 18, W. of the 4th Mer.

Thickness of Seam: 6 feet.

Thickness of Cover: 42 feet.

Character of Coal: Domestic.

Shaft Mine.

H. Sharkey. (Mine No. 878.) (Closed.)

Location of Mine: River Lot 26, Tp. 46, Rge. 21, W. of the 4th Mer.

Area: 10 acres.

Character of Coal: Domestic.

Thickness of Seam: 6 feet.

Thickness of Cover: 30 feet.

Stripping pit.

F. A. Brandt. (Mine No. 971.)

Location of Mine: S.E. $\frac{1}{4}$, Sec. 28, Tp. 46, Rge. 20, W. of the 4th Mer.

Area: 160 acres.

Character of Coal: Domestic.

Thickness of Seam: 6 feet.

Thickness of Cover: 16 feet.

TOFIELD DISTRICT.—DISTRICT NO. 24.

J. J. McDevitt. (Mine No. 149.)

Mine Office: Tofield.

Overman: J. J. McDevitt.

Mine Surveyor: C. C. Sutherland.

Location of Mine: S.W. $\frac{1}{4}$ Sec. 24, Tp. 50, Rge. 19, W. of the 4th Mer.

Area: 40 acres.

Character of Coal: Domestic.

Thickness of Seam: 8 feet.

Thickness of Cover: 14 feet.

Tofield Coal Company, Limited. (Mine No. 252.)

Mine Office: Tofield.

Head Office: Benson Block, Edmonton.

Authorized Capital: \$250,000.00.

President: Robert Lee.

Vice-President: W. I. Crafts.

Directors: R. Lee, W. I. Crafts, C. Gallinger.

Secretary-Treasurer: C. Gallinger.

Mine Surveyor: Driscoll & Knight.

Location of Mine: Sec. 26, Tp. 50, Rge. 19, W. of the 4th Mer.

Area: 640 acres.

Character of Coal: Domestic.

Thickness of Seam: 7½ feet.

Thickness of Cover: 16 feet.

A stripping pit; overburden removed by a Marion steam shovel. Railway cars loaded by means of wheelbarrows.

The plant has a capacity of 450 tons per day.

The Dobell Coal Company, Limited. (Mine No. 340.)

Mine Office: Tofield.
 Head Office: 138 St. Peter's St., Quebec.
 Authorized Capital: \$50,000.00.
 President: W. M. Dobell.
 Vice-President: A. E. Doucet.
 Directors: W. M. McPherson, Lorenzo Evans, R. Reid Dobell, T. R. Henderson.
 Secretary-Treasurer: F. O. Judge.
 Managing Director: T. R. Henderson.
 Mine Surveyor: Thomas R. Henderson.
 Location of Mine: S.E. $\frac{1}{4}$, Sec. 35, Tp. 50, Rge. 19, W. of the 4th Mer.
 Area: 240 acres. Character of Coal: Domestic.
 Thickness of Seam: 8 feet.
 Thickness of Cover: 14 feet.

A stripping pit, overburden removed with a steam shovel. Railway cars loaded by means of wheelbarrows.

The plant has a capacity of 450 tons per day

CLOVER BAR DISTRICT.—DISTRICT NO. 25.*Frederick Thomas Fudge. (Mine No. 8.)*

Overman: F. T. Fudge.
 Location of Mine: N.E. $\frac{1}{4}$ Sec. 7, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 15 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 70 feet.

Clover Bar Mine Coal Company. (Mine No. 9.)

Mine Office: Beverly.
 Manager: G. Bilson.
 Overman: G. Bilson.
 Mine Surveyor: D. Jones.
 Location of Mine: Sec. 18, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 815 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 65 feet.

Shaft mine. The hoisting shaft is divided into two compartments and is equipped with self-dumping cages.

The plant has a capacity of 250 tons per day.

Improvements since 1916 consist of tail rope haulage underground, belt driven electric motor 125 H.P. D.C. motor 47.5 amps 250 volts, 60 lockers in wash-house, 35 new mine cars.

Electrical power supplied by the Humberstone Coal Company, Limited.

The Humberstone Coal Company, Limited. (Mine No. 43.)

Mine Office: Beverly.
 President: Mrs. Beata Humberstone.
 Secretary: C. G. Sheldon.
 General Manager: Mrs. Beata Humberstone.
 Manager: C. J. Ferguson.
 Overman: W. Miller.
 Mine Surveyor: R. H. Cautley.
 Examiners: G. Thom, W. Dunn.
 Location of Mine: L.S. 15, Sec. 7, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 200 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 50 to 125 feet.

Shaft mine, coal hoisted in self-dumping skips and dumped over a shaker screen. Underground haulage is on the endless rope single track system, the engine being located on the surface.

The mine is worked on the room and pillar system, the coal being undercut by compressed air coal-cutting machines of the Post Radial and Puncher type.

Open lights are used throughout the mine.

The Bush Mine Coal Company, Limited. (Mine No. 46.)

Mine Office: Beverly.
 Authorized Capital: \$45,000.00.
 President: C. E. Laderoute.
 General Manager: H. S. Southgate.
 Manager: N. Fraser.
 Secretary-Treasurer: H. S. Southgate.
 Overman: R. Hedges.
 Mine Surveyor: N. Fraser.
 Examiner: W. Wilcox.
 Location of Mine: River Lot 42, Edmonton.
 Area: 210 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet.
 Thickness of Cover: 50 to 120 feet.
 Owner of Property: Magrath & Holgate.

Coal hauled from mine to tippie by means of an underground slope to the surface, and an incline above ground from mouth of slope to the tippie. Underground haulage from bottom of slope consists of main and tail rope system, and horses from inside workings to the siding.

The system of working is room and pillar, no coal-cutting machines being used. The tippie is equipped with bar screens, and has a capacity of 300 tons per day. Open lights are used throughout the mine.

Keith & Fulton. (Mine No. 69.)

Mine Office: Clover Bar.
 Overman: J. Mather.
 Mine Surveyor: A. C. Dunn.
 Location of Mine: L.S. 16, Sec. 7, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 40 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 9 feet to 100 feet.
 Output is 60 tons per day.

Fraser-McKay Collieries, Limited. (Mine No. 90.)

Mine Office: Clover Bar.
 Head Office: 10055 101st Street, Edmonton.
 Authorized Capital: \$20,000.00.
 President: Norman Fraser.
 General Manager and Secretary-Treasurer: W. C. MacKay.
 Manager: N. Fraser.
 Overman: R. Dalziel.
 Mine Surveyor: N. Fraser.
 Location of Mine: L.S. 12, Sec. 8, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 160 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet.
 Thickness of Cover: 10 to 100 feet.
 This mine is located at Clover Bar, and is entered by a shaft 100 feet deep, used for hoisting coal, and a drift driven from the flats near the river used as traveling way.
 The shaft is equipped with self-dumping cages, the coal passing over a shaker screen, making three sizes.
 The mine is worked on the room and pillar system, no coal-cutting machines being used.

Open lights are in use throughout the mine.
 Improvements are as follows:
 Wash-house equipped with hangers, sprays and wash-basins, also a new boarding house built.

R. P. Ottewell Coal Mine. (Mine No. 91.)

Mine Office: Clover Bar.
 Overman: W. J. Ottewell.
 Mine Surveyor: A. C. Dunn.
 Location of Mine: S.W. $\frac{1}{4}$ Sec. 17, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 140 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet.
 Thickness of Cover: 80 feet.
 This mine is entered by drifts driven in from the river bank.

The Great West Coal Company, Limited. (Mine No. 99.)

Head Office: 10026 101A Avenue, Edmonton.
 Authorized Capital: \$150,000.00
 President: J. C. Dunn.
 Directors: A. C. Dunn, W. S. Cupples.
 Secretary-Treasurer: Thos. S. Campbell.
 Manager: A. C. Dunn.
 Overman: John Russell.
 Mine Surveyor: A. C. Dunn.
 Location of Mine: S.E. $\frac{1}{4}$, Sec. 7, Tp. 53, Rge. 23, W. of the 4th Mer.
 Area: 1,118 acres. Character of Coal: Domestic.
 Thickness of Seam: 6 feet 3 inches.
 Thickness of Cover: 160 feet.

This mine is located at Clover Bar, and is entered by a slope from the prairie, also by drifts from the river bank.

The system of working is room and pillar, the coal being undercut by electrically operated coal-cutting machines of the Chain type.

Haulage on the main slope is by steam-driven hoist, on the entry to bottom of slope by Mancha electric storage battery locomotive, horses being used for gathering from the working faces.

The tippie is equipped with rotary dumps, and shaker screens. The slack is elevated to a height of 60 feet by a bucket conveyor, and is screened through a Rotary screen.

The plant has a capacity of 800 tons per day, the mine cars holding 1,500 lbs. Open lights are used throughout the mine.

McIntyre & Son. (Mine No. 699.)

Mine Office: Clover Bar.
 Head Office: 10155 100A Street, Edmonton.
 Authorized Capital: \$20,000.00.
 President: R. L. McIntyre.
 Vice-President: G. N. McIntyre.
 Secretary-Treasurer: J. Birchall.
 General Manager: A. E. Nickerson.
 Manager: J. Finlayson.
 Overman: L. Parker.
 Mine Surveyor: R. H. Cautley.
 Location of Mine: L.S. 15, Sec. 8, Tp. 53, Rge. 23, W. of the 4th Mer.
 Thickness of Seam: 6 feet. Character of Coal: Domestic.
 Thickness of Cover: 125 feet.

The surface plant consists of a Marcus screen, grading the coal into lump, kitchen, nut, egg, and slack sizes.

The plant has a capacity of 600 tons per day.

The system of working is room and pillar, the coal being undercut by compressed air machines of the Radial Post type. The shaft is equipped with two self-dumping cages.

A brick building has been erected, which contains office, hoist house and boiler room.

Open lights are in use throughout the mine.

Ferndale Collieries. (Mine No. 707.)

Mine Office: Beverly.
 Head Office: 1304 Williamson Block, Edmonton.
 Authorized Capital: \$50,000.00.
 President: W. H. Duggan.
 Directors: D. Minorgan, R. L. Armstrong, G. Jones, S. Rees, J. Hunter.
 Secretary-Treasurer: T. C. King.
 Manager: W. H. Duggan.
 Overman: H. Hunter.
 Mine Surveyor: W. H. Duggan.
 Location of Mine: River Lots 36, 38, 40, Edmonton Settlement.
 Thickness of Seam: 4 feet 6 inches.
 Thickness of Cover: 95 feet.
 Character of Coal: Domestic.

Tippie in course of construction will be equipped with shaker screen, the coal being hoisted in self-dumping cages. The plant will be operated by electrical power, which will be purchased from the City of Edmonton.

EDMONTON DISTRICT.—DISTRICT NO. 26.

Big Island Coal Company. (Mine No. 24.)

Mine Office: R.R. No. 3, Edmonton South.
 Overman: W. Abell.
 Mine Surveyor: D. Jones.
 Location of Mine: L.S. 12, Sec. 20, Tp. 51, Rge. 25, W. of the 4th Mer.
 Area: 57½ acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 100 feet.

Steve Pohlko. (Mine No. 29.)

Mine Office: Edmonton South.
 Overman: Steve Pohlko.
 Mine Surveyor: D. Jones.
 Location of Mine: L.S. 13, Sec. 25, Tp. 51, Rge. 23, W. of the 4th Mer.
 Area: 640 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 115 feet.

McPeak Coal Company. (Mine No. 49.)

Mine Office: Cor. 112th Ave. and 76th St., Edmonton.
 Overman: W. Williams.
 Mine Surveyor: D. Jones.
 Location of Mine: River Lot 26, Edmonton.
 Area: 35 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 100 to 200 feet.

Edmonton Collieries Limited. (Mine No. 147.)

Mine Office: 92nd St., Fraser Flats.
 Head Office: 10206 103rd Street, Edmonton.
 Authorized Capital: \$50,000.00.
 President: C. W. Rickard.
 Secretary-Treasurer: C. W. Leonard.
 Directors: C. W. Leonard, C. W. Rickard, W. H. Duggan.
 Manager: W. H. Duggan.
 Overman: W. H. Duggan.
 Mine Surveyor: W. H. Duggan.
 Location of Mine: River Lot 18 and 20, Edmonton Settlement.
 Thickness of Seam: 6 feet.
 Thickness of Cover: 100 feet. Character of Coal: Domestic.
 Two shafts 100 feet deep, 14 ft. x 7 ft., and 8 ft. x 5 ft. respectively.
 Underground haulage is on the main and tail rope system with engine on surface.
 The surface plant consists of a 30-H.P. electrically operated hoist, a 22-H.P. electrically operated main and tail rope haulage engine, the tibble being equipped with shaker screens.

The room and pillar system of working is adopted, the coal being undercut by electrically operated Ironclad coal-cutting machines of the chain type. All electrical power is purchased from the City of Edmonton.

Safety lamps of the Wolf Flame type are in use throughout the mine.

Dawson Coal Company, Limited. (Mine No. 155.)

Head Office: McDougall Court, Edmonton.
 Authorized Capital: \$30,000.00.
 General Manager and Secretary-Treasurer: C. A. Hyndman.
 Overman: T. Strickland.
 Mine Surveyor: N. Fraser.
 Location of Mine: River Lot 25, Edmonton.
 Area: 160 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet 6 inches.
 Thickness of Cover: 90 feet to 250 feet.

The mine is entered by shafts, and is worked on the room and pillar system, the coal being undercut by compressed air coal-cutting machines of the Radial Post type.

Crown Coal Company, Limited. (Mine No. 632.)

Mine Office: 10631 92nd St., Edmonton.
 Head Office: 10351 82nd Street, Edmonton.
 Authorized Capital: \$50,000.00.
 President: James H. Dowdell.
 Directors: J. H. Dowdell, A. B. Singleton, J. H. Starkey.
 Manager: James Clyne.
 Overman: James Clyne.
 Mine Surveyor: C. C. Sutherland.
 Location of Mine: River Lot 20, Edmonton Settlement.
 Area: 129.66 acres. Character of Coal: Domestic.
 Owner: Department of Justice, Canada.

This mine is connected to the Canadian National Railway by a spur 660 feet long. The depth of the two shafts on this property is 247 feet. Self-dumping cages are in use for hoisting the coal to the tippie, which is equipped with a rotary screen.

The mine is worked on the room and pillar system, all coal being undercut by electrically operated ironclad coal-cutting machines of the Chain type.

All electrical power for operating the hoist, screens, and pumping is purchased from the City of Edmonton.

Rudolph Brothers. (Mine No. 720.)

Mine Office: Strathcona.
 Overman: Emil Rudolph.
 Location of Mine: L.S. 13, Sec. 5, Tp. 51, Rge. 25, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet 6 inches.
 Thickness of Cover: 50 to 200 feet.

Pete Pawlina. (Mine No. 798.)

Mine Office: Edmonton South.
 Overman: F. Felbel.
 Location of Mine: L.S. 8, Sec. 35, Tp. 50, Rge. 26, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet 6 inches.
 Thickness of Cover: 10 to 150 feet.

Kuhnert, Hiller & Hine. (Mine No. 837.)

Mine Office: Strathcona.
 Overman: Herman Kuhnert.
 Location of Mine: S.W. $\frac{1}{4}$, Sec. 6, Tp. 51, Rge. 25, W. of the 4th Mer.
 Area: 11 $\frac{1}{2}$ acres. Character of Coal: Domestic.
 Thickness of Seam: 4 feet 6 inches.
 Thickness of Cover: 10 to 150 feet.

J. H. Farnell. (Mine No. 865.)

Mine Office: Big Island.
 Location of Mine: L.S. 11, Sec. 29, Tp. 51, Rge. 25, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 10 to 100 feet.
 Mine not operating at present.

Silvano Centazzo. (Mine No. 868.)

Mine Office: R.R. No. 3, Strathcona.
 Overman: Silvano Centazzo.
 Mine Surveyor: D. Jones.
 Location of Mine: L.S. 4 and 6, Sec. 21, Tp. 51, Rge. 25, W. of the 4th Mer.,
 Thickness of Seam: 5 feet 6 inches.
 Thickness of Cover: 10 to 80 feet.

J. Reed & T. Brown. (Mine No. 869.)

Head Office: 74th Street, 109th Avenue, Edmonton.

Authorized Capital: \$25,000.00.

President: J. H. Reed.

Vice-President: Thomas Brown.

Manager: Thomas Brown.

Overman: Thomas Brown.

Mine Surveyor: Thomas Brown.

Location of Mine: River Lot 16, Edmonton Settlement.

Thickness of Seam: 5 feet.

Thickness of Cover: 70 to 150 feet.

The plant consists of one 15-H.P. electrical double drum hoist, one self-dumping cage, one balance cage, double compartment shaft 6 x 12 feet. The screening plant consists of bar screen, and a shaker screen with perforated plates.

Mine not connected to any railway.

All electrical power for hoisting, etc., is purchased from the City of Edmonton.

Open lights are used throughout the mine.

Edmonton Cartage Company, Limited. (Mine No. 877.)

Mine Office: 8103 103rd Street, Edmonton.

Overman: S. D. McDermid.

Location of Mine: N.W. $\frac{1}{4}$, Sec. 25, Tp. 51, Rge. 25, W. of the 4th Mer.

Area: 40 acres.

Character of Coal: Domestic.

 Mine just opening up.

NAMAQ DISTRICT.—DISTRICT NO. 27.

Sturgeon Valley Collieries, Limited. (Mine No. 101.)

Location of Mine: Sec. 9, Tp. 53, Rge. 24, W. of the 4th Mer.
 Area: 160 acres. Character of Coal: Domestic.
 Thickness of Seam: $5\frac{1}{2}$ feet.
 Thickness of Cover: 68 feet.
 Mine closed.

Frank Smith. (Mine No. 389.)

Overman: F. Smith.
 Location of Mine: N.E. $\frac{1}{4}$, Sec. 8, Tp. 55, Rge. 24, W. of the 4th Mer.
 Area: 20 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet 8 inches.
 Thickness of Cover: 50 feet.

The Kelly Coal Company, Limited. (Mine No. 397.)

Mine Office: 10369 95th Street, Edmonton.
 Overman: J. Bainbridge.
 Mine Surveyor: T. B. Williams.
 Location of Mine: S.E. $\frac{1}{4}$ Sec. 8, Tp. 55, Rge. 24, W. of the 4th Mer.
 Area: 160 acres. Character of Coal: Domestic.
 Thickness of Seam: 5 feet.
 Thickness of Cover: 10 to 90 feet.

Mrs. E. Kelly. (Mine No. 428.)

Mine Office: Namao.
Head Office: 10740 126th Street, Edmonton.
Manager: E. Sparrow.
Overman: E. Sparrow.
Mine Surveyor: D. Jones.
Location of Mine: N.E. $\frac{1}{4}$ Sec. 8, Tp. 55, Rge. 24, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Shipping coal by railway, output 100 tons per day.

Cardiff Collieries Limited. (Mine No. 32.)

Mine Office: Cardiff.
Head Office: Winnipeg.
Authorized Capital: \$700,000.00.
President: J. M. de C. O'Grady.
Secretary: A. Cooper.
Manager: D. Jones.
Overman: E. Roberts.
Surveyor: D. Jones.
Location of Mine: N.W. $\frac{1}{4}$ Sec. 24, Tp. 55, Rge. 25, W. of the 4th Mer.
Area: 630 acres. Character of Coal: Domestic.
Thickness of Seam: 16 feet.
Thickness of Cover: 30 feet.
Owner of Property: Cardiff Collieries Limited, Winnipeg, Man.
Output of coal, 300 tons per day.
No improvements to date.

Alberta Coal Mining Company, Limited. (Mine No. 129.)

Mine Office: Cardiff.
Head Office: Room 36 Bank of Montreal Bldg., Edmonton
Authorized Capital: \$250,000.00.
President: J. L. Bell.
Vice-President: W. L. Carter.
Secretary-Treasurer: Geo. S. Montgomery.
Directors: Geo. S. Montgomery, J. L. Bell, W. L. Carter.
General Manager: Geo. S. Montgomery.
Manager: D. Jones.
Overman: Gus. Ostheidt.
Mine Surveyor: D. Jones.
Location of Mine: N.E. $\frac{1}{4}$ Sec. 23, Tp. 55, Rge. 25, W. of the 4th Mer.
Area: 320 acres. Character of Coal: Domestic.
Thickness of Seam: 16 feet.
Thickness of cover: 40 feet.

The Banner Coal Company, Limited. (Mine No. 237.)

Mine Office: Cardiff.
Head Office: Room 20, Sandison Block, Edmonton.
Manager: J. A. H. Church.
Overman: W. Gilliland.
Mine Surveyor: J. A. H. Church.
Location of Mine: S.W. $\frac{1}{4}$ Sec. 24, Tp. 55, Rge. 25, W. of the 4th Mer.
Area: 160 acres. Character of Coal: Domestic.
Thickness of Seam: 12 feet.
Thickness of Cover: 43 feet.
Shaft mine. Underground haulage. Main and tail rope.
Output of coal 250 tons per day.

Peter R. Logan. (Mine No. 926.)

Mine Office: Morinville.
Overman: Walter Bradley.
Location of Mine: N.E. $\frac{1}{4}$ Sec. 36, Tp. 56, Rge. 26, W. of the 4th Mer.
Mine just opening up.

WABAMUN DISTRICT.—DISTRICT NO. 29.

Lakeside Coals Limited. (Mine No. 419.)

Mine Office: Wabamun.
 Head Office: 711 Tegler Bldg., Edmonton.
 Authorized Capital: \$300,000.00.
 President: E. A. McBain.
 Vice-President: G. R. Roberts.
 Secretary: W. W. McBain.
 Managing Director: W. W. McBain.
 Manager and Mine Surveyor: A. B. Hunter.
 Location of Mine: L.S. 15, Sec. 9, Tp. 53, Rge. 4, W. of the 5th Mer.
 Area: 680 acres. Character of Coal: Domestic.
 Thickness of Seam: 28 feet.
 Thickness of Cover: 50 to 120 feet.

Only the lower 7 feet of this seam is worked, the upper part being composed of dirty coal, and shale is left up for a roof.

The plant has a capacity of 250 tons per day.

Improvements from 1916 to date are new electric motors on fan and tippie, and a new fan house.

PEMBINA DISTRICT.—DISTRICT NO. 30.

North American Collieries, Limited. (Mine No. 227.)

Mine Office: Evansburg.
 Head Office: 908 Lancaster Bldg., Calgary.
 Authorized Capital: \$1,000,000.00.
 President: H. A. Lovett, K.C.
 Vice-President: Hugh Mackay.
 Directors: J. W. Pyke, R. M. Ballantyne, H. Curry, J. M. Mackie.
 Secretary-Treasurer: W. W. Berridge.
 General Manager: W. J. Dick.
 Manager: John A. McLeod.
 Overman: P. Melling.
 Mine Surveyor: J. A. McLeod.
 Location of Mine: S.E. $\frac{1}{4}$ Sec. 30, Tp. 53, Rge. 7, W. of the 5th Mer.
 Area: 10,800 acres. Character of Coal: Domestic.
 Thickness of Seam: 7 feet 6 inches.
 Thickness of Cover: 308 feet.

Owner of Property: North American Collieries, Limited.

This mine is located at Evansburg, about sixty miles west of Edmonton, on the Grand Trunk Pacific and Canadian National Railways.

It is entered by two shafts, the hoisting shaft being a 2-compartment shaft equipped with self-dumping cages.

The plant has a capacity of 1,000 tons per day.

The following additions and improvements have been made to the plant:

A new office and warehouse, additions to wash-house and power-house, thirty-five new cottages, community hall, a new hotel with sixty rooms, one 125-K.W. Curtis Turbine operated generator, and two storage battery electric locomotives.

The tippie and screening plant were destroyed in 1917, but have been completely rebuilt and equipped.

J. H. Barker. (Mine No. 935.)

Mine Office: Gainford.
 Location of Mine: E. $\frac{1}{2}$ of Sec. 36, Tp. 53, Rge. 6, W. of the 4th Mer.
 Character of Coal: Domestic.

Mine just opening up.

JASPER PARK DISTRICT.—DISTRICT NO. 31.

Jasper Park Collieries, Limited. (Mine No. 280.)

Mine Office: Pochontas.
 Head Office: 1606 Alworth Bldg., Duluth, Minn.
 Location of Mine: L.S. 9, Sec. 6, Tp. 49, Rge. 27, W. of the 5th Mer.
 Area: 7,689 acres. Character of Coal: Bituminous.

This mine was abandoned in May, 1921.

Blue Diamond Coal Company, Limited. (Mine No. 429.)

Mine Office: Brule Mines.

Head Office: Toronto, Ontario.

Authorized Capital: \$1,500,000.00.

President: J. P. Bickell.

Vice-President: W. J. Sheppard.

Secretary-Treasurer: H. G. Laux.

Directors: J. P. Bickell, W. J. Sheppard, J. B. Tudhope, N. S. Dunlop, Strachan Johnson.

General Manager: Gordon F. Dickson.

Manager: W. G. Heeley.

Overmen: T. J. Shaw, T. Thompson.

Mine Surveyor: J. H. Cummings.

Location of Mine: L.S. 1, Sec. 16, Tp. 50, Rge. 27, W. of the 5th Mer.

Area: 2,560 acres.

Character of Coal: Bituminous.

This mine is connected by a spur line, three miles in length, to the Canadian National Railway and Grand Trunk Pacific main lines to the Pacific coast.

Considerable folding has taken place in the rock formation, causing the pitch of the strata to be very irregular.

Two seams are being worked at present, No. 2 constituting the high level district and No. 3 seam the No. 3 South workings.

The following improvements have been made:

Main and tail rope haulage from No. 3 slope to the tippie, several houses built, machine-shop and warehouse built; also considerable rock tunnel work has been done underground.

Solomon Creek Coal Company. (Mine No. 832.)

Mine Office: Brule Mines.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 31, Tp. 50, Rge. 27, W. of the 5th Mer.

Character of Coal: Bituminous.

Three seams have been prospected on this property. The property is still in the prospecting stage, no coal having been shipped.

YELLOW HEAD PASS DISTRICT.—DISTRICT NO. 32.

Yellowhead Coal Company. (Mine No. 220.)

Mine Office: Coalspur.

Head Office: Union Bank, Ottawa, Ont.

Manager: E. I. Roberts.

Overman: E. I. Roberts.

Mine Surveyor: D. Jones.

Location of Mine: Sec. 6, Tp. 49, Rge. 21, W. of the 5th Mer.

Area: 6,600 acres.

Character of Coal: Bituminous.

Owner of Property: Yellowhead Coal Company.

Thickness of seam from 8 to 16 feet, pitching 60 degrees in a south-westerly direction.

The mine is located at Coalspur, and is entered by a rock-tunnel.

The room and pillar system of working is adopted.

Open lights are used throughout the mine.

The following improvements have been made to the plant:

A belt conveyor, 250 ft. centres, to convey the coal from the dump to the screen, having a capacity of 800 tons per day, a 50-K.W. D.C. generator supplying power to fan and for lighting purposes. Also 10 houses have been built for employees.

Sterling Collieries Limited. (Mine No. 769.)

Mine Office: Basing, A.C.B.

Head Office: 507-8 McLeod Bldg., Edmonton.

President: William Oliphant.

Vice-President: R. H. Munson.

Secretary: O. B. Munson.

Treasurer: F. J. Mitchell.

General Manager: R. M. Halpenny.

Assistant General Manager: G. R. Winkler.

Superintendent: W. F. Stevenson.

Mine Surveyor: O. L. Puckett.

Location of Mine: L.S. 2, Sec. 35, Tp. 47, Rge. 20, W. of the 5th Mer.

Character of Coal: Bituminous.

Owner of Property: Sterling Collieries, Ltd.

The seam being worked has a thickness of about 200 feet.

This mine is located at Mile 47 on the Alberta Coal Branch of the G.T.P., and is worked as a stripping pit, the overburden which ranges from 8 to 30 ft. in thickness, being removed by a 60 ton Marion steam shovel. The material is loaded into dump cars and hauled to the spoil bank by an 80 ton locomotive.

The coal, after the overburden has been removed, is shot, holes being drilled from the top by a Keystone Drill, and loaded into cars, by a 35-ton steam shovel, which are hauled to the tippie by locomotives.

The mine cars are unloaded into a pocket, from which the coal is elevated to a storage bunker, at the top of the tippie, by a steel belt conveyor, operated by electricity. The tippie is equipped with a screening plant, having a capacity of 2,000 tons per day.

The Foothills Collieries, Limited. (Mine No. 771.)

Mine Office: Foothills P.O.

Head Office: 228 Portage Ave., Winnipeg, Manitoba.

Authorized Capital: \$300,000.00.

President: W. A. Windatt.

Vice-President: E. H. Bennest.

Secretary-Treasurer: C. D. Shepard.

General Manager: W. B. Onions.

Manager: W. Pickles.

Overman: W. Pickles.

Mine Surveyor: J. H. Smith.

Location of Mine: L.S. 10, Sec. 24, Tp. 47, Rge. 20, W. of the 5th Mer.

Area: 320 acres.

Character of Coal: Bituminous.

Owner of Property: The Foothills Collieries, Ltd.

The seam being worked has a thickness of 17 feet, the upper 6 feet being kept up for roof support, the cover being from 20 to 150 feet thick, the seam pitching 12 degrees in a southwesterly direction.

The mine is entered by slopes, and is worked on the room and pillar system.

The plant has a capacity of 500 tons per day.

Alberta Standard Coal Company, Limited. (Mine No. 775.)

Mine Office: Coalspur.

Manager: J. R. McDonald.

Overman: J. Nicol.

Location of Mine: S.W. $\frac{1}{4}$ Sec. 14, Tp. 49, Rge. 21, W. of the 5th Mer.

Mine Surveyor: D. Jones.

Area: 160 acres.

Character of Coal: Bituminous.

Thickness of Seams: No. 1 seam—6 feet; No. 2 seam—9 feet.

Thickness of Cover: 40 feet.

This mine is entered by means of a slope on No. 2 seam, and a drift to No. 1 seam, and is worked on the room and pillar system.

Surface plant consists of a shaker screen, a steam boiler of 50-H.P., and a steam hoist to hoist coal from the mine entrance to tippie, a distance of about 300 feet.

Stupor, Oakley & Company. (Mine No. 829.)

Mine Office: Blackstone Mines P.O.

Location of Mine: S.E. $\frac{1}{4}$ Sec. 19, Tp. 47, Rge. 19, W. of the 5th Mer.

Character of Coal: Bituminous.

This mine is located on the Alberta Coal Branch of the Grand Trunk Pacific Railway and is entered by drifts, the seam having a thickness of 36 feet, dipping 10 degrees in a southwesterly direction. Only 12 feet of coal is being worked.

The room and pillar system of working is adopted. Some work has been done at this mine by the stripping method, the cover at this point being 7 feet thick; this portion of the mine is not at present in operation.

Brookdale Collieries Limited. (Mine No. 833.)

Mine Office: Lovettville.

Location of Mine: L.S. 6, Sec. 16, Tp. 47, Rge. 19, W. of the 5th Mer.

Area: 160 acres.

Character of Coal: Bituminous.

Thickness of seam 30 feet, about 12 feet of which is taken out and the balance left to form roof and floor, the cover being 60 feet in thickness.

This mine is situated about 17 miles from Coalspur, on the Alberta Coal Branch of the Grand Trunk Pacific.

The mine has not operated since July, 1921.

McLeod River Hard Coal Company, Limited. (Mine No. 846.)

Mine Office: Mercoal via Coalspur.
 Head Office: Mercoal via Coalspur.
 Authorized Capital: \$20,000.00.
 President: N. Gurvich.
 Directors: J. G. Scott, J. Miller.
 Secretary-Treasurer: C. H. Orme.
 Overman: A. Rice.
 Mine Surveyor: D. Jones.
 Location of Mine: L.S. 5, Sec. 25, Tp. 48, Rge. 22, W. of the 5th Mer.
 Thickness of Seam: 16 feet.
 Thickness of Cover: 100 feet.

This mine is situated about 5 miles from Coalspur, on the Mountain Park Branch of the Grand Trunk Pacific Railway.

The mine is entered by means of a slope, up which the coal is hoisted to the tippie by a steam-driven hoist.

The room and pillar system of working is adopted. The plant has a capacity of 150 tons per day.

The Pacific Colliery. (Mine No. 854.)

Mine Office: Lovettville.
 Location of Mine: S.W. $\frac{1}{4}$ Sec. 10, Tp. 47, Rge. 19, W. of the 5th Mer.
 Area: 40 acres. Character of Coal: Bituminous.
 Thickness of Seam: 10 feet.
 Thickness of Cover: From 10 to 30 feet.

This mine is situated about 19 miles from Coalspur, on the Alberta Coal Branch of the Grand Trunk Pacific Railway.

The mine is now abandoned.

Johnston Carscadden. (Mine No. 896.)

Mine Office: Blackstone Mine Post Office.
 Location of Mine: L.S. 5, Sec. 16, Tp. 47, Rge. 19, W. of the 5th Mer.
 Area: 160 acres. Character of Coal: Bituminous.
 Thickness of Seam: 50 feet.
 Thickness of Cover: 15 feet.

This mine, which was operated as a stripping pit is located about 15 miles from Coalspur, on the Alberta Coal Branch of the Grand Trunk Pacific Railway.

The mine is now closed.

James H. Bryan. (Mine No. 897.)

Mine Office: Lovettville.
 Location of Mine: N. $\frac{1}{2}$ Sec. 17, Tp. 47, Rge. 19, W. of the 5th Mer.
 Area: 320 acres. Character of Coal: Bituminous.
 Thickness of Seam: 50 feet.
 Thickness of Cover: 15 feet.

This mine, which is operated by stripping the surface, is located about 15 $\frac{1}{2}$ miles from Coalspur, on the Alberta Coal Branch of the Grand Trunk Pacific Railway.

Output about 150 tons per day.

MOUNTAIN PARK DISTRICT.—DISTRICT NO. 33.

Mountain Park Coal Company, Limited. (Mine No. 282.)

Mine Office: Mountain Park.
 Head Office: 708 Tegler Bldg., Edmonton.
 Authorized Capital: \$3,000,000.00.
 Board of Directors: Chairman: Col. A. Mitchell, David McCowan, C. J. Leyland, J. C. C. Bremner, R. W. Jones, G. R. F. Kirkpatrick, R. G. Drinnan, J. C. Dunn.
 Secretary: E. N. Anderson.
 Manager: A. N. Scott.
 Overman: W. Robinson.
 Mine Surveyor: A. N. Scott.
 Location of Mine: Sec. 33, Tp. 45, Rge. 23, W. of the 5th Mer.
 Area: 5,120 acres. Character of Coal: Bituminous.
 Owner of Property: Mountain Park Coal Co., Ltd., Edmonton.

This mine is located at the end of steel, on the Mountain Park Branch of the Grand Trunk Pacific Railway, about 33 miles from Coalspur.

The workings are confined to the No. 3 seam, which has a thickness of 12 feet, with blackjack and coal roof and sandstone pavement, the strata having a dip of 25 to 35 degrees in a south-westerly direction.

The mine is entered by drifts and slopes, the workings being confined to the east side of the valley, work on the west side having been discontinued.

The system of working is room and pillar, all rooms being driven to the rise on the full pitch of the seam.

Horse haulage is used on the entries, with rope haulage on the slope.

Safety lamps of the Wolf Flame type are supplied to officials and workmen, the haulage crews using cap lamps of the Edison Electric type.

The plant has a capacity of 1,000 tons per day.

The following improvements have been made:

A snowshed has been built over the mine tracks from the tippie to No. 3 slope, box car loader installed, lamp cabin and time office built.

Cadomin Coal Company, Limited. (Mine No. 693.)

Mine Office: Cadomin.

Head Office: 282 Main St., Winnipeg, Manitoba.

Authorized Capital: \$2,000,000.00.

President: F. L. Hammond.

Vice-President: E. M. Powley.

Secretary: Edward Baillee.

Manager: A. G. Macaulay.

Overmen: E. Coupland, G. Nicol.

Mine Surveyor: A. G. Macaulay.

Location of Mine: L.S. 14, Sec. 31, Tp. 46, Rge. 23, W. of the 5th Mer.

Character of Coal: Bituminous.

The No. 1 seam on the west side of the valley is being worked at this mine, and is being rapidly developed on the angle system, consisting of main and back angle chute. The seam has a thickness of 33 feet, pitching 60 degrees in a south-westerly direction, and is opened up by means of entries driven in from the outcrop.

The coal is taken over the river to the tippie across a bridge, by means of rope haulage, the tippie being equipped with shaking screens, having a capacity of 100 tons per hour.

A rock tunnel has been driven between Nos. 1 and 2 seams for a distance of 1,000 feet, the intention being to cross-cut to the seams and use the above tunnel as the main haulage road for both seams.

Safety lamps of the Wolf Flame type are in use by the officials, cap lamps of the Edison electric type being used by the workmen.

The plant consists of 375-H.P. boiler, air compressor, one 125-K.W. steam turbo generator set.

The mine opened up on the east side of the valley has been closed, owing to a fire which occurred in the workings in March, 1920.

Luscar Collieries, Limited. (Mine No. 905.)

Mine Office: Mountain Park.

Head Office: 708 Tegler Bldg., Edmonton.

Authorized Capital: \$1,000,000.00.

Board of Directors: Chairman, Col. A. Mitchell, David McCowan, J. C. C. Brenner, R. G. Drinnan, J. C. Dunn, Col. M. E. Lindsay, D.S.O., and A. C. Dunn.

Manager: W. B. Hetherington.

Secretary: J. C. Dunn.

Overman: W. B. Hetherington.

Mine Surveyor: A. N. Scott.

Location of Mine: Sec. 23, Tp. 47, Rge. 24, W. of the 5th Mer.

Area: 5,000 acres.

Character of Coal: Bituminous.

Owner of Property: Luscar Collieries Ltd.

The property lies about five miles north-west of Cadomin, and is connected to the Mountain Park Branch of the Grand Trunk Pacific Railway by a branch line.

The development work up to date has been the driving of main and counter entries in the "Jewel" seam, which has an average thickness of 50 feet, pitching about 38 degrees.

A temporary tippie has been built at each of the above openings, for the purpose of loading coal into railway cars.

An average of twenty-five men was employed during the year, most of the time being spent in prospecting work.

One 40-H.P. locomotive boiler installed, one ventilating fan and engine, eight log-buildings erected during the year for the accommodation of the employees.

The following table gives the names and numbers of the districts, along with the name and address of the District Inspector of Mines in charge of each.

No. of District	Name of District	Name and address of District Inspector of Mines
1 2	Crow's Nest Pass Pincher Creek	James Crowder, Blairmore, Alberta. Telephone No. 70.
3 4 5 6 7 8 9 10 16	Lethbridge Magrath Milk River Taber Bow Island Medicine Hat Aldersyde High River Brooks	Nathaniel Howells, Lethbridge, Alberta Telephone No. 325.
13 14 17 19 20 21	Drumheller Big Valley Hanna Trochu Three Hills Carbon	David Shanks, Calgary, Alberta. Telephone No. M2140.
11 12 15 18	Canmore Banff Brazeau Lacombe	James A. Richards, Edmonton, Alberta Telephone No. 1089.
22 23 24 25 26 27 28 29 30 31 32 33	Battle River Camrose Tofield Clover Bar Edmonton Nampa Cardiff Wabamun Pembina Jasper Park Yellowhead Pass Mountain Park	William Shaw, Edmonton, Alberta Telephone No. 1089.

In addition to the above, Mr. James A. Richards (11009 89th Avenue Edmonton) is acting in the capacity of General District Inspector of Mines. Telephone No. 3662.

BOARD OF EXAMINERS

The constitution of the board during 1921 was as follows:

As representing:

(a) The Mine Inspectorate:

John T. Stirling, Chief Inspector of Mines.

(b) Managers:

Robert Livingstone and Francis Aspinall.

(c) Working Miners:

Evan Morgan and Alexander G. Watters.

Secretary:

James A. Richards.

Examinations were held during the year as follows:

For First and Second Class Certificates of Competency: on June 1, 2, 3, at Blairmore, Lethbridge, Calgary, Edmonton, Nordegg and Mountain Park.

For Third Class Certificates of Competency: at Calgary, Taber, Edmonton, Blairmore, and Pocahontas, on May 4; at Lethbridge and Drumheller, on May 5; at Brule, on May 6; at Mountain Park, on May 10; at Coalspur, on May 12; and at Nordegg, on June 4.

For Mine Surveyors' Certificates of Competency: on June 4, at Blairmore, Lethbridge, Calgary, Edmonton, Nordegg, and Mountain Park.

Twenty-one candidates presented themselves for examination for First Class Certificates, two of whom were successful; thirty for examination for Second Class Certificates, twelve of whom were successful; ninety-one for examination for Third Class Certificates, of whom seventy-four were successful; and twelve for examination for Mine Surveyors' Certificates, of whom five were successful.

During the year two hundred and seventy-six Provisional Certificates were granted to persons, authorising them to act as Overmen until they had an opportunity of obtaining final Certificates by examination.

LIST OF MINES

The following table gives particulars of mines which have been opened in the Province:

Mine No.	Operator	Address	District No.	Location			Character of Coal	Date of		Re-opening
				S.	T.	W. of M.		Opening	Abandonment	
42	Alberta Railway & Irrigation Co.	Lethbridge.	2	10	5	1	Domestic	1905	1906
76	Alberta Coal & Coke Co., The.	Lundbreck.	2	23	7	5	Domestic	1906	1909
129	Alberta Coal Mining Co., Ltd.	Edmonton.	28	1	55	25	Domestic	1907
218	Consolidated with No. 296.	Champion.	9	8	16	23	Domestic	1909
223	Adams Coal Mine Co., Ltd.	Lethbridge.	3	1	3	12	Domestic	1910	1913
270	Arbaster & Lloyd.	Bow Island.	7	5	11	11	Domestic	1911	1913
296	Ashmore & Sons.	Champion.	9	1	16	23	Domestic	1911
358	Annon & Barr.	Winnifred.	7	12	12	10	Domestic	1912
390	Abel, W. S.	Kippenville.	5	1	3	12	Domestic	1913	1916
